DEERFIELD  
ACADEMY

1999

"Far beyond each western mountain  
Gleam the fires of dying day;  
Softly from each hidden fountain  
Flows the river on its way.  
All the valley lies in splendor  
Hushed before the coming night;  
From a hundred ancient windows  
Flashes back the sunset's light."

## *Music in the Making*

Reed Weeden plays Amelia Earheart during the advanced acting performance. Every aspect of Deerfield life comes together to make the music.

Music is always in the making. Whether it be on the athletic fields, in the buildings, on the quad, or in the Greer Store, it is the songs of Deerfield that bring us together.

Each Deerfield student comes from a different background, bringing their own music to share when they arrive. Yet, the different notes harmonize to create an ideal environment giving us the opportunities to excel toward our future goals. As WGAI's hit songs echo across the quad, the Melody's and Rhapsody's fine tune their own musical renditions, and victory cheers resonate from the lower fields, we take in the sounds of the present. It is when we reflect on our Deerfield days we are "bound by song before we go" because "Deerfield Days are Days of Glory, and memory lives in every one."

Junior girls are all dressed up and ready to dance the night away at the Winter Semi-Formal.

Ryuji Yamaguchi is all fired up to defeat his opponent on the wrestling mats.

From the fields, to the buildings, to the stage, the Deerfield songs are endlessly heard throughout the valley. Every note comes together to make a song we could never forget.

As the end of the year approaches, we, as Deerfield students of the class of 1999, are honored to graduate as the tenth class of co-education. All aspects of Deerfield life have been effected by this simple, yet complex change. From athletics and academics, to social life, Deerfield's atmosphere has developed itself to incorporate a greater appeal. Typical everyday concerns were forced to manage issues such as parietals and co-ed study hall. Within the classroom, discussions include broader interpretations and opinions which only further provoke each student's excellence. On the sports fields, Deerfield boys and girls have gained respect for each other through competition and raised athletics to new levels. The progression from busing in Stonleigh and Miss Porter girls to asking the girl at a sit-down table to the prom has allowed the community to grow in unity. Without the hard work of trustees, alumni, past headmasters, faculty, staff, and parents, co-education would not be possible. By acknowledging the necessity for these changes, Deerfield has maintained itself as one of the most prestigious schools in the nation. These are the changes that make Deerfield what it is today.

Tara Taylor and Maggie Brown look rough and tough in their hockey equipment, displaying a new side of Deerfield hockey in the last ten years.

A group of girls, now graduated, huddle together, enjoying Deerfield life. These girls had the courage to take one of the first steps in making Deerfield what it is today.

Deerfield's rigorous academic and athletic schedule can be a bit stressful sometimes! Students must come up with certain vices to unload the pressure. The Greer, the dances, the quad, the river, and the late nights with your dormmates are just a few of the many outlets Deerfield students find to relieve the stress. This life outside of the structured day is where we will make the friendships that will last a lifetime. These are the people we will keep in touch with over the next twenty years. Without "student life" the Deerfield experience is incomplete.

## Scaife II

There once was a floor designated Scaife II  
We were a foul-ball, nasty, stragone crew.  
Although their pasts are not perfectly clear,  
Here's a look at their future, and the corridor this year:  
The resident of the hall was the one and only Ms. Wright,  
Who fought for her prefix to be finally set right.  
First, there is Conway, who ought to be neutered,  
You should see what he's got on his computer.  
Tek was the one with many a spasm,  
He shrieked and he yelled...another stress orgasm.  
All the Senior girls think that Bud is a dear,  
Too bad they'll all be leaving this year.  
Rafi has become a very noisy neighbor,  
Screaming about Sequora and his child labor.  
Turner always shows us his moon and his sun,  
And eventually fade Kiley with his shot gun.  
Ram is just another average joe,  
You know we love the guy but he sure needs a "bro".  
Brooks is the one to carry on the great legacy,  
Of continuing his position of Midget Squad presidency.  
Malcolm is continually looking for a mate,  
But who could possibly top his semiformal date?  
Dunning continues to tease us so,  
He'll spend his life as a gigolo.  
Kiley's the one who we cannot rest assure,  
because he'll be arrested for indecent exposure!(TRI-NUTT)  
Coyle is the one that must master biology,  
For he'll be majoring in canine proctology.  
Tim is the one who may be a playa,  
But will wait till he gets so Saudi Arabia.  
Kevin's the quiet one who always seems calm,  
But will end up needing lots more lip balm.  
Lusking, who's often taking the faculty's wrath,  
Will end up killin' two guys that teach math.  
Whatever you do, don't interrupt Schmid's sleep,  
Or into your body, much anguish will seep.  
Hiro certainly had egregious female problems,  
Lord knows he'll never be able to solve'em.  
Well, that is the story of craaaazy Scaife II,  
We hope we offered you guys somethin' new.  
We've seen blood, we've seen sweat, and anger and sin,  
Oh what a long, long, strange trip it's been...

To all the boyz of Scaife II, it was a pleasure  
livin' with you youngsters.  
Don't trip, keep it real, stay outta trouble.

## Health Center

Health Center '98-99 The group of girls was very fine.  
At one end of the hall lived Gigi our mom and Khaleillee  
our shorty, they were da bomb. The Titanic was  
Bethany's fave, a tall, slim Brazilian is what she craved.  
Meredith's phone went w/ her everywhere. On IM  
Chivon would talk in underwear. After reading Jess  
would never see, and the microwave blew up 'cause of  
Tiffany. Megan and Anne never opened a book, trips to  
the store they always took. Annie always w/ a boy,  
Stephan is her little toy. Our girls loved to chill in  
Waldo's room, the mess outside made many fume. At 7  
o'clock Virginie was never around, watching Due South  
was where she would be found. The dishes they were  
never done, sunday baths were a lot of fun. Amy and  
Megan lived in a double, the two of them in one room  
were nothing but trouble. Food from the nurses on the  
1st floor, we'd be down @ 12:30 asking for more. The  
dorm shook from room 218, the messiest room you've  
ever seen. We leave you now with a lovin' wish, and a  
final farewell to the fish.

Who -ahh!!

## Rosenwald I

If you were to walk down our hall on any given night, you would encounter:

- 8:03pm - Mimi has not started her work, but is on the computer.
  - 8:17pm - Kelly is singing as she walks down the hall w/ those animals on her feet; a perpetual smile on her face.
  - 8:26pm - Maggie has started her work and will emerge only once before ten o'clock.
  - 8:31pm - "Where is Sheida?" At her teacher's house getting the assignments for the next 2 weeks
  - 8:39pm - Mimi is still on her computer (not working).
  - 9:06pm - Ghess returns from dance. Do not worry, that sound is not coming from a machine gun; it's only her printer.
  - 9:16pm - "Has anyone seen Dawson?" - "I think she hid herself under her bed."
  - 9:30pm - Kody, Maggie, Mimmi and Sheida take a field trip to work on Astronomy.
  - 9:44pm - Mimi returns to her computer.
  - 10:02pm - we're not sure if Nina has checked in, but we can hear her heavy metal music, so we're pretty sure she's in.
  - 10:10pm - We hear from Felicia's room, "I just finished the book and now I get to start the book review that was due yesterday! And I still have Mac homework left! I love life!"
  - 10:42pm - FEED! Cads cooked us cinnamon buns! Save some for Justie! Vanessa downs gallons of milk after finishing up a slice of cheese-less pizza and tomato pie, in order to fuel herself for the rest of the night. Obviously Maggie provides the entertainment w/ "Happy Birthday TO YOU!!"
  - 10:52pm - Mimi is now on the phone and simultaneously playing solitaire.
  - 11:30pm - Julia finishes sanitizing her room and gets in the shower - wow is she prompt!
  - 11:44pm - Kody starts her homework and still makes it to bed by twelve o'clock.
  - 1:00am - While most of the hall is in bed, Quinnie and Vanessa move into the common room to set up base camp for the night.
  - 2:11am - Macster is on the prowl...again.
  - 5:30am - Vanessa and Quinnie just finished their homework and have scratch marks to attest to their brawl of the night, when they look out the window and see BL start her morning run.
  - 6:00am - Vanessa and Quinnie go into the bathroom to wash up for bed when Anna comes in smiling, ready for the day!
- Special thanks to Cabs, Angela, Justin and Mr. Cabral. This year is dedicated to our furry friends Mr. Opossum/Possum and Mr. Mouse...how can we forget BL.**

## Rosenwald II

While walking down Rosenwald II you might be wondering what you should do  
When the scent from the common room, foul and stale,  
Mixed with the screams produced over some hot male  
Urge you to move out of its way,  
But Adele's hallway trash can decides to trip you today.  
To clean up the blood, you go to the sink,  
Where Ivy stands with cordless phone and jacket, bright and pink.  
Margaret walks in, electric toothbrush in hand  
While the bass booms down the hall from Katia's favorite band.  
If you dare to venture on  
You will notice Fay is gone.  
could she be in the pool, swimming so quick,  
or downstairs with Colin? Take your pick.  
Louise's Aunt is on the last stair,  
Oblivious to the evil pair  
Breaking parietals as we speak.  
Avi, was that you up here last week?  
Now Karlo's donkey laugh might give you a fright,  
Or the source from Alexis' room that never fails to give off light.  
Alex and Merrill, why do you have straight hair?  
And Sarah, tell me the post-it notes on your face were a dare.  
Now Addie and Emma come running wearing ridiculous hats,  
Knocking over Mr. Taylor, famed for his never ending chats.  
Merrill has broken every fire code rule,  
And Alida's rice cooker might make you drool,  
Mr. Taylor, you are a good dorm head indeed,  
but every once in a while we would like a feed.  
Yet when Rosenwald II is finally put to the test,  
You will surely conclude that we are the best!

## Doubleday III

On Doubleday III we continue the saga,  
Gone are the days of the men of ganja.  
Yet we push on as loyal defenders,  
Although half of our floor are sex offenders.  
Reed is the man who loved the Great Went.  
When we went swimming, he knew what it meant.  
Josh cashed in and couldn't cope,  
His best part was that his girl was dope.  
Barret helped Diamond and labeled his stuff,  
Without a friend like Will, life is quite ruff.  
Pomerantz was quiet, but ask the girls what they think.  
They'll say he's a pervert and needs a good shrink.  
You all know Bart, but I'll tell you a fable:  
He joins my grandma at her Hannukkah table.  
Blake, the Whalers are from Hartford, not North Carolina,  
Mess with the Whale and I'll deprat your ass to China.  
Yoo Kim from Burma never made it to class,  
Thank God the track coaches kiss his ass.  
Hall was the man...the man from Nantucket.  
The rest of the song rhymes with Kirby Puckett.  
Speaking of pucks, we have Oriel and Glenn,  
Who helped bring victory to the Big Green men.  
Mr. Murray loved Dill and always brought his thirst,  
In the line for the keg, he was always first.  
Eddie and I are leaving, but we'll always stay true,  
Mr. Murray and Dill, this bud's for you.

## Shumway I

Wouldn't be the same if...

- Laura wasn't getting up at the crack of dawn to shower

- Grace could not drink diet coke
- Ali wasn't called "BGB"

## Shumway II

Wouldn't be the same if...

- Shumway III didn't also live here
- Our windows actually closed all the way
- Other girls didn't come to our feeds
- Valerie ever turned off her alarm clock
- Mr. Murray didn't visit Aurora ever night
- Chevone didn't sing alone to the "The Phantom of the Opera at 7am"
- Vanessa didn't wear a metallic thong

## Barton I

Sit right down and put in a d#%,  
While we take you on a Barton I trip.  
This is a story about the first floor boys,  
Who brought the funk, and brought the noise.  
Gilbo was crazy, "psycho bob" was his name,  
Spending with his lady was his favorite game.  
Tucker McDonald, good ol' Spanky McDuck,  
When Maags saw his computer screen, it was the worst of his luck.  
Babcock was always in his room playing a game,  
His study habits put all other to shame.  
Bebe Canner was everyone's tool,  
We beat on him just because he was cool.  
In his mind he was quite the hockey star,  
But his beatings in the dorm often went a little too far,  
Jonny Mac was always climbing the wall,  
On one night, we had to protect him from a fall.  
Freedman seemingly was always there,  
And many kids wanted him out of their hair.  
Ted Pataki the bigoted one,  
He sure did lik play, but he always got none.  
Big ol'Phil always wanted to be the boss,  
He ordered every night no matter what the cost.  
His room was smelly and always quite a mess,  
And when it came to the rules, he couldn't care less.  
Dennis Kiley, the head of the floor,  
But why this obsession with a young female sophomore?  
Whether shooting hoops or ar history,  
Emily tutored Dennis in anatomy.  
Studious and good was little Ravi Chugh,  
He offered every person he saw a great big hug.  
Then there was a big nasty boy named Nate,  
Nobody knew how his nastiness became so great.  
At forty to five each day of seven,  
With the Dali G in hand, he was in heaven.  
So those are the kids of the great BI,  
Who always behaved, but made sure they had fun.

## DeNunzio I:

One working shower, on the legendary Frisco  
While walking back from practice,  
Koji once fell asleep in the snow.  
Graney, our southern brother, said he  
Never got play because he was too nice,  
Nolen never left the bathroom,  
In there, he spent his entire life.  
Nick's computer was tough to turn on,  
But Aroesty didn't have that problem,  
He never stopped playing bond.  
Conrad and Heidi came up with some pretty sweet feeds,  
But in the famous "shower incident",  
Rose did some vey dirty deeds.  
Porter, continually playing in the hall,  
Should have pegged Ming  
Once, if not for all.  
With Doug, came Cate, to live in our dorm,  
Sith never left his room,  
Overall, he strayed a little from the norm.  
Without the RoSho girls, we would have been pretty lonely,  
Meanwhile, Lubin's motto was:  
we accept cash only.  
When he wasn't running, Eno played the guitar,  
Dave, Kris, and Wes: our three pg's  
came through in the Denunzio B-Ball game,  
Not living on Nills' floor,  
Gee, what a shame.

## DeNunzio II

I arrived at my dorm and everyone was gay,  
Happy, and joyous. It was a beautiful day.  
I went to sleep with a smile on my face that night,  
But when I awoke to a take a shower, I was introduced to a whole  
new light.  
It soon became apparent that five of us didn't belong  
So we sat down to write this beautiful song.  
We'll start at the far end where we rarely went,  
As you will hear our time there was seldomly spent  
Dixon is the kid on the basketball court with the socks,  
His PDA shows imply that he thinks Brandi is a real fox  
Hayden was the kid that always used to brag,  
Especially after his dance with Tiffany  
John Kim.....who are you?  
Joe was the kid who never wore sleeves,  
Even though his pipes were the size of small leaves  
We only saw Andre at feeds,  
come ding ding time he was always there to satisfy his needs  
Brooks was always on the go  
That's why we nicknamed him enfuego  
Kiko always wore his Armani clothes,  
Which only gained attention from ugly hoes  
Cullinan knew everything about every sport,  
Except how to play them, and that really hurt  
Goody was the kid who always had a wedge,  
I saw him in the loft and wanted to push him off the ledge  
Flash said, What's wrong with women in sports?  
He needs to get something in his shorts  
Dion had his fun one night,  
And he threw up the next day with all his might  
Bullfrog was the only junior involved in this rhyme,  
Because he was linear he committed no crime  
Kirley always took clothes from me,  
To look nice and work 14 year old Bea  
Stevie the mechanic always worked on his car,  
Putting in so much work got him far  
Starke was the kid naked in the shower,  
Pleasuring girls hour upon hour  
Byrnze was the player of the year,  
He snapped his fingers and the girls would come near  
Gilly was the doctor of love,  
When girls opened their eyes, they found him above

## Field I

"Wait, Field is now a guy's dorm?" was an FAQ this year along with  
"Where's the urinal?" The hall definitely had its fair share of  
testosterone with Alex "no, I already have that jpeg" Emmons and  
Brian "all the girls want me" Rodriguez. But the most civilized male  
hall ensued after a series of regulatory little twisters and Sat.  
Morning threats by a Quaker and a Diabetic. It was "impossible to  
restrain the male hormone" according to Mike Kohn and organized  
wrestling became a dorm sport for all of two days. With the help of  
higher powers, a "compromise" was reached. Crosby "Doctor"  
Selander was always around to help with any finger injuries that  
might occur during an intense game of network quake. Ping "I  
have a big snake...board" Panyarachun taught the dorm a  
valuable form of Tai-Chi while Skyler "isn't that a girl's name" Smith  
couldn't shut his cheeks long enough to think. Goran "I'm not  
stressed" Lynch entertained us all with nightly depictions of the joys  
of math class while...in his leather chair. The testosterone levels in  
Louis "dots butter yo" Ng were kept well in check by Andy "I want to  
be a proctor" Black. The reknown captain of the Fresh-Soph soccer  
team Kevin "complaisant" Wei was voted most likely to become the  
next illustrious DQ. Charlie "NOT in my dorm!" Payne played *Lucy in  
the Sky with Diamonds* much too high while John "Peerless shoes"  
Miller laughed quietly about that physics quiz that "didn't go so  
well." Gene "was all like" Cho and Paul "I can't hurt my left hand"  
Garound kept a steady beat for the corridor.

Being a dad to fourteen sons is a tough job, but Jaspser "I  
need to shoot up" Turner and Cameron "It's time for bed" Byrd  
handled it well, successfully leading thirteen to a whole new level  
of maturity. You've made it an interesting senior year Field I.

## Field II

JJ, Alex, Joe: As Proctors on Field 2, we encountered a  
lot of weird mierda. We've concluded that everyone on  
the hall, with the exception of us of course, has  
**PROBLEMS, ISSUES** or some sort of **MENTAL  
DISORDER** that need to be resolved. We don't care  
where you get help, just get it!

Collin: How could you go out with her and not get  
any?

Chris: Who gave you them damn haircuts?

Ben B: Where the hell were you all year?

Adit: Did it hurt when you busted your head open?

Ted: Why?

Ben C: Did you really piss on the floor?

Rich: You need to stop watching movies and being a  
damn snitch!

Tyler: What's up with your nipples?

Peter: Why do you like showing off your bird chest?

Kris: You need new friends.

Phil: Stop beating on the Gimp and what happen to  
crosses you promised?

Adam: Stop being the Gimp and stop asking to use  
the proctor stall. No means no!

Leslie: Stop bringing Brian to our feeds!

Bathroom: The proctor stall was the best.

Ms Nichols: When are we on duty again? Pop Tarts?  
Oh that's what that was!

## Field III

An ordinary night on Field III:

-Mr. Lisa-throwing a party for the young teachers association

-Joe-wonders how many day students can stay in my room on a  
Tuesday night?

-Francis-proving once again that the Irish are the most "tolerant"  
people

-Ian-still awake after one hundred and thirty-five hours, and filling a  
Gatorade bottle with "magic juice"

-Weston-surfing [www.toomuchtimeoncomputer/getalife.org](http://www.toomuchtimeoncomputer/getalife.org)

-Matt-taking the microscope, edible, plastic particles out of his  
McDonald's milk shake

-"B.A." Ned-interupting Mr. Lisa's party to get parietals on a  
weeknight

-Malcolm-still trying to destroy the Buddha

-Henry-clubbing in Miami

-"Masta" Don-doing the "electric-unplugged" version of "leaving on a  
Jet Plane" with Ned

-Star-trying to convince people to go sledding with him

-Bill-trying to convince the girls that the Deerfield clause doesn't apply  
to them

## Pocumtuck I

Poc I wouldn't be Poc I if:

- the proctees didn't love their proctors so much (Mieke and Nani)
  - we could take a shower w/ the lights on
  - the proctees didn't steal their proctors' towels in the shower
  - Mutzy didn't wear wear thong underwear over her jeans
  - Nani wasn't naked all the time
  - Zoe didn't knock on doors and then run away
  - TJ, Tyler, and Kali weren't always on the hallway
  - Steve didn't make fattening feeds and dumb jokes
  - Andy didn't dance in the halls
  - Jen and Christine could dance
  - Christine and Nani could dress
  - Jennifer was in her room during study hours.
  - Shama's music wasn't...mmm...so wierd
  - Claire wasn't so perky all the time
  - Colleen and Jen didn't run all the time
  - Mieke could say "banana"
  - Janis and Nani didn't try to kill each other every day
  - Mary didn't love pink
  - we didn't love dinosaurs so much
  - Jen didn't wake Nani up every morning in the wee hours
- Jurassic Poc - you guys are the best - good luck next year!!!**

## Pocumtuck III

"At first I thought it was weird, but then I thought hey—it's Abby and Tara." - Kat, 1998. Ok, so we're weird. But we're all little weird here on Poc III, right????

Ms. Silva: From the purple nail polish to peppermint tea, always looking to better our female souls(Reviving Ophelia lives on!).

Katie: Oh, Katie. Always asking questions, but we love your visits. Keep listening to that country music...

Emily: Mr. Bojangles? Though your room alone could burn down the entire dorm, we love you !!!!! Pell will always be swell.

Meghan: M&M! Tara's boobs will miss you, but not more than we will. You're larger than life, even TV! Never forget that.

Kyle: How's Poc 2? We know you love us, cuz you always come back for more. We'll be hearing your laugh in our sleep for the rest of your lives...and loving it!

Julia: Lives off Clinique, Coke and Beanie Babies. Who took all of the honey? 8-Inch heels...Ju-ia! Stay sexy.

Ruth: Rufus oh Wuthie. Although you claim that you've already had the best 10 years of your life, just wait...sex machine will be coming to town!

Kat: making out with yourself in the mirror and pinpointing the situation. Remember, friend, we'll always be (point) there.

And last but not least, your proctors, who reside in their palace. No doubt, we're by far the weirdest of all. Voodoo-doll Queen to Boob Machine: We'll never forget you girls...you made our year. We couldn't have asked for anything weirder...or better. We love you guys and will miss you! Let's all keep in touch. XOXO

## Hitchcock

Once there was a little white house  
And lived - three little girls and one field mouse.  
Their names, Amanda, Evie, Allison and Lexie,  
You'd better believe it,- they were quite sexy.  
Everyone said "You're going to kill each other,"  
But they got along fine - with Forginia as mother.  
One warm sunny day,  
Painters came to take the little white house away.  
In its place was left an atrocious red-  
A whim that popped into Eric's head.  
Douglas one night took them to the diner  
They all agreed-nowhere was the food finer.  
On the way back the girls wanted to go "eighty! eighty!"  
But Forginia assured them that doing so was not being a lady.  
Friendly's with Mrs. Henry was next on the "sched".  
After she took them, Wanda wanted to jump off a ledge.  
They met Corey, the studly waiter,  
But when he called Forginia kindly said: "We'll talk later."  
Above them lived a big black psycho that resembled a bear,  
And who can forget the time when Amanda fainted on her way down the stairs?  
"We hate it when dorks like us!" the Hitch girls always said,  
Carrot sticks and celery was what they were fed.  
"Getting busy" read the sign on Lexie's door,  
It was true, for the boys never thought her a bore.  
One friday night the girls hosted a hoedown,  
All went well until one of the torches got blown down.  
At night Dellilah was their favorite host,  
While the highest dorm GPA was theirs to boast,  
"We are all beautiful" was their favorite saying  
But with a serious lack of play, they were a payin'  
"Peeing with the door open", was the norm,  
When Lexie left for a short while, their hearts were worn.  
A late night trip to Stillwater was planned  
To say goodbye to their friend - embarking on a trip across the land.  
Evie's departure left them sad and shaken  
But a pimpin' room was left there for the talkin'.  
It was the Forginia decided to be more sensitive, effective faculty resident,  
and Allie agreed, the very intelligent junior class president.  
"Whenever you need be cheered," Douglas said, "Just try and bite the wall."  
Annoying stalker your problem? Lexie will give him a call.  
Associate Ms. Sanabria was their pal every Monday night.  
She'll talk to you a lot but, no, she will not bite.  
Every Sunday evening when no play is to be had,  
The Grow-a-Date starts expanding, it is the Hitch girls' favorite fad.  
Who is to say, as their critics predicted,  
if, in the next few months, they will be evicted,  
Or, kill each other as one sage boy foresaw,  
With battle axes and poison, like murdering outlaws.  
No doubt, in future, the dorm will be maligned,  
Hitchcock, they'll say, was dysfunction defined.

Yes, it's true. This schoolhouse rocks, thanks to Deerfield's incredible group of faculty and staff! DA's students have this eclectic jumble of people to thank for making our time here both enriching and fun. Through stretching our minds, giving us greens and grays, and making those long sought-after feeds, Deerfield's adults teach us new things every day. So whether it be in showing that "Three is a Magic Number" or instructing all about "Energy", the faculty and staff here at Deerfield "rock the house." They remind us daily that "knowledge is power!"

# “Circulation” Heads and Deans

Headmaster, Eric Widmer, poses happily in his office, diligently studying the facebook.

Clad in Deerfield green, Mr. Widmer gives a rousing Choate Day speech.

These people have power! The Headmaster and Deans are responsible for running our school; they make key decisions daily that affect our lives drastically. This group of men and women keep Deerfield running smoothly, hence the title “Circulation.” The Headmaster and Deans also represent responsible role models for students to emulate. They generously dole out cookies every Friday in winter, and are always available to chat with students. Whether admiring Ms. Mac’s and Ms. Valk’s soccer prowess or practicing French with Mr. Murray, members of the Deerfield community learn many things from the Deans.

Taking a math course at Deerfield can be quite the adventure. Budding algebra aficionados are mesmerized by Peter "Czar" Hindle's colorful socks, while Calculus students become well acquainted with Mr. Magee's love for baseball. Deerfield's math faculty is truly a unique and energetic group. Then of course, there are those who have brought us numerous technology presentations at school meetings, created and updated our ever-growing school network, and given us e-mail in our rooms: the computer science faculty. They bask in the blue glow of computer screens for hours on end to bring more of the world into Deerfield.

Nestled away in a far corner of our vast campus lies a secret. A trek from virtually every other academy building is the “energetic” Science Department. Deerfield’s science teachers share their passion for this discipline daily with students. Through running (sometimes hazardous!) lab experiments, and conducting fascinating lectures, these motivated men and women instruct DA’s budding scientists all about the workings of the world around us. They make our classes compelling, and without their teaching talent, learning about electron shells and annelids might not be so!

From Shakespeare to Toni Morrison, Deerfield’s esteemed English faculty knows about it all! These individuals share their passion for the written word with eager students daily. We have only them to thank for our love of independent clauses, the Old Testament, and of course, declamations. Through the study of the English language, Deerfield’s boys and girls learn how to clearly express their opinions and thoughts. We have our English teachers to thank for this valuable knowledge. DA’s English classes are unforgettable; whether a freshman engrossed in analyzing Odessus’s arduous mission, a sophomore muddling through Chaucer’s Canterbury Tales, a junior learning about Frederic Douglass, or a senior studying “Scribbling Women,” Deerfield’s students will never forget the knowledge they gained from their English teachers!

## Foreign Languages

As one strolls down the hallways of the Classroom Building, random interjections of every language from French to Chinese are audible. Students in one “habitation” are studying Spanish with Mr. Taft, while in the very next classroom Mr. Brush is playfully speaking Latin with eager pupils. The Language Department of Deerfield offers a wide variety of foreign tongues, and its faculty is just as eclectic. No student of Madame Lyons will ever forget her zestful energy, and anyone who has taken a course of Professora Invernizzi would ever speak English in class, lest they lose their quarters! These teachers show us that while speaking a foreign language is challenging, the results are rewarding. *Merci! Salve! Gracias!*

Explosive in the classroom, Deerfield's own historians teach students the true meaning of "being worthy of our heritage." These teachers instruct us all about our forefathers, from the ancient Romans to the prehistoric Anasazi Indians. Through lively discussions and (nearly impossible) exams, Deerfield's history faculty make sure their students understand the material. That's lucky for us, huh? This group of talented artists, musicians, dancers, designers and actors shares their experience and abilities with young people who are eager to learn and grow. They guide us on our path toward personal success and fulfillment. These individuals have created for students an outlet to relieve stress of life at Deerfield. We are very grateful. Academic achievement is often made possible solely by the expansion of our minds in other areas, and thanks to these teachers, this is something that will stay with us always.

So you don't feel well huh?? Well the Health Center is the place to come. Everyday, throngs of sick students trample over to the tiny, brick building to obtain athletic excuses, have a check up with the doctor, or just to "chill" with one of the friendly nurses. **2002~** Though their initiation into the Deerfield world was somewhat harsh, the year proved to be well worth it. They are burghers no more!

**2001~** As for the #1 class,(or so they chant at school meeting) they certainly lived up their days as underclassmen. They know 3am will soon be their bedtime. Here comes junior year!

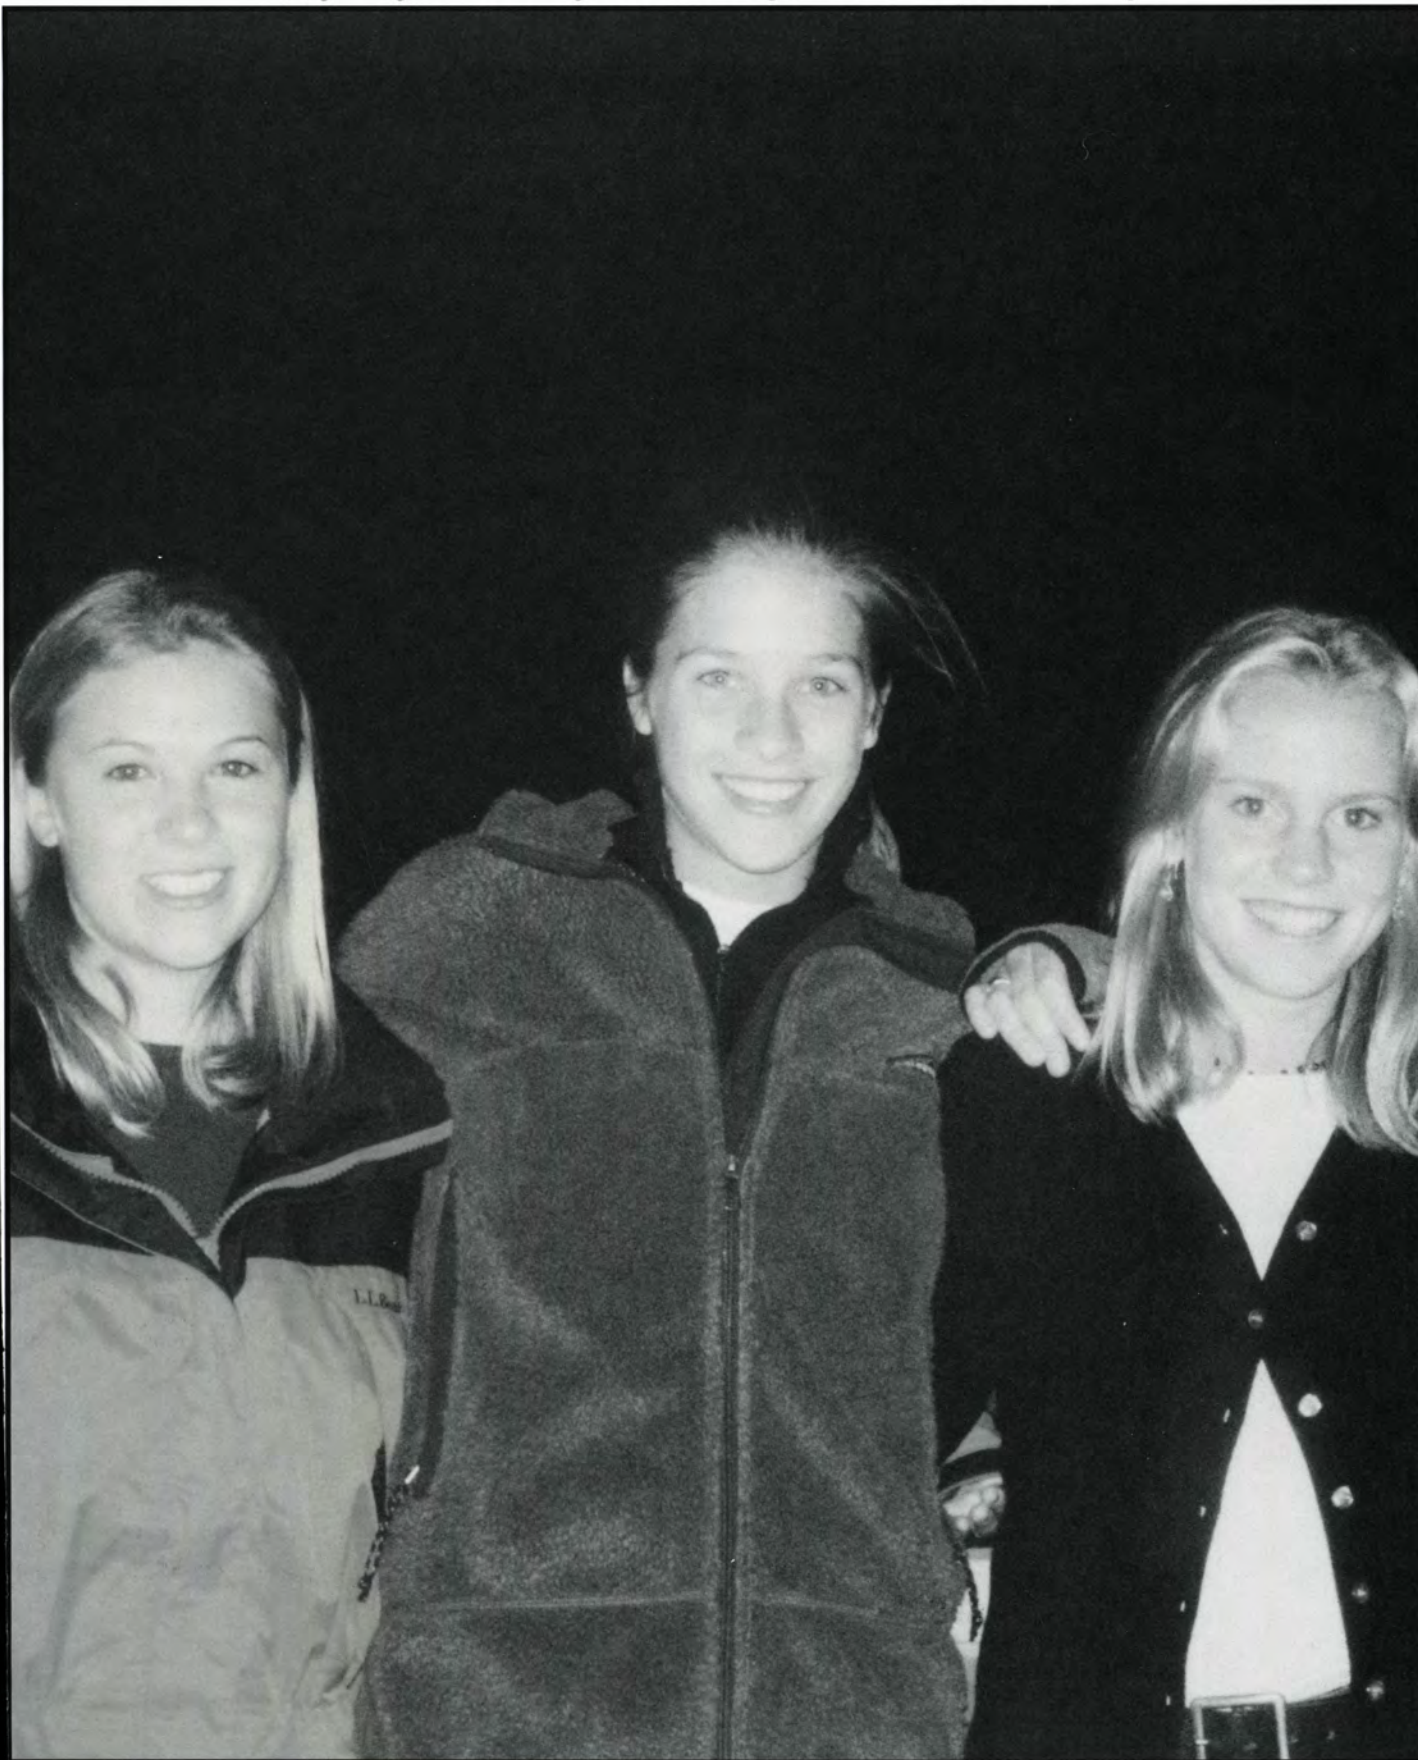

**2000~** While the last class of the millenium saw sunrise before their pillow often, they were never "lonely" at 3am with their books close at hand.

This year proved to an adventure to the true Deerfield experience!

Whether we have spent four years at Deerfield or one, we all strive for a common goal: excellence. Our class is comprised of talented athletes, intellectuals, and artists that come together to form the unique class of 1999. From our first day here to college applications to senior spring, we have successfully maintained a balance between our social and academic lives. As the true bicentennial class, we can confidently say that Deerfield has saved the best for last.

As the century comes to an end, so must our time here. Nonetheless, our memories will always linger in our hearts. Let us open the door to a new beginning and seize the opportunities that await us on the other side of the threshold.

## JOANNA REBECCA MUNSON

"I go to encounter for the millionth time the reality of experience" (Joyce)  
 "Creative work needs solitude. It needs concentration, without interruptions. It needs the whole sky to fly in, and no eye watching until it comes to that certainty which it aspires to, but does not necessarily have at once."  
 (Oliver) "Call miracle self-healing: The utter self-revealing double-take of feeling" (Heaney) "Something overwhelms the street: elms" (Fallon) "I do not seek to follow in the footsteps of men of old; I seek the things they sought" (Basho) Later, perhaps, I will be eloquent enough and distanced enough to write what it is that Deerfield and those within it have meant for me. I can only say that the people and the area have meant the most. I have realized a love of learning and learned to cherish the human heart. Thank you: Sara, Mom, Dad, Toddy, Jeff, Matt, Jenny, Grandma Geri, LV, AL, TT, LM, AC, RW, LB, BU, JT, ATG, JB, LS, KS, Joel, O'B, Heise, Palmer, Driskill, Littwin, and the Nelsons.

## LUKE ALAN VOILAND

They would not find me changed from him they knew, Only more sure of all I thought was true.- Robert Frost from "Into My Own"  
 Character is higher than intellect. Thinking is the function. Living is the functionary. - Ralph Waldo Emerson from *The American Scholar*  
 That place, two miles as the crow flies, and seven by road, where I spent a majority of my last three years, will always remain visceral, utterly real. Deerfield will always constitute a massive root, second only to the tap root of my family, from which my existence grows. For all that I have learned, worked for, lost, enjoyed and loved at Deerfield I am thankful. To my teachers, Mr. Heise, Mr. T-A, Mrs. Dorey, Ms. Lyman, Mr. D, and all the rest, thank you. To my friends, Ryan W-M (my boy), Koji (short in stature, tall in character), Adam and Casey and the rest of the Mem, Eugene and Topics, D-An, Lindy and Modern Times, DMW (and his obsession), Margaret and Steve, ATG, Reed and Honors Lit, my brother (you'll never be held up by me again), Special Xers, Scrollers, Jasper (sprint) and Cam (huge), I will always remember these times. To my dear Joanna, I will always remember Deerfield as the place we met.-LukeVoiland

"There are People. That's almost everybody. Just people. The kind of people who are hidebound by convention, who have no understanding, no compassion, who are unhappy and don't even know it, and because of their own unhappiness subconsciously enjoy condemning other people in an effort to make them even more unhappy. Then there are real people. They're a very small class, and very wonderful. They're not creators, they're not artists, but they can understand and appreciate consciously, not just animalistically.... Then there's the other kind. The phony artists... and they can do a tremendous amount of harm. Then there's the last class of all. Sarah and I called it our kind, but that was presumptuous of us. It's what we want to be, what we must always try to be, or there's no point in living." - **The Small Rain**, Madeline L' Engle/ Mom & Dad, sorry I racked up such a huge phone bill calling home, but the lifeline of your loving voices brought me to the surface to breath/ Rebecca, Aren't you glad I won't have to wear fancy clothes anymore?/ Madame L ou est ma guillotine?/ Mr.Henry, may soft winds always dance across the harp & fill your sails. ## OMAR HERNANDEZ

"I believe a leaf of grass is no less than the journey-work of the stars, and the pismire is equally perfect, and a grain of sand, and the egg of wren," "I know I have the best of time and space, and was never measured and never will be measured." "Not I, not any one else can travel that road for you, You must travel it for yourself." "I answer that I cannot answer, you must find out for yourself."

— Walt Whitman

What can I say? It's been a long four years. Mr. Harcourt & Mr. Taylor: YOU NEVER THOUGHT I WOULD MAKE IT! Well, I proved both of you wrong. To Mr. Howell: your class inspired me to be a good student. Mr. T-A: I learned what hard work was in your class. Star: your wittiness helped me through tough times. Quimby: don't get so down, we're going to college! You were a good friend. P-man: you introduced me into a whole world I never would have known. Durgin: don't change. You were a true friend. Charlie: you were my only friend freshman year. Thanks. Schmiddy: you just stay the course and you will end up wherever you want to be. I have to tell Julia that I was the secret admirer. My 6<sup>th</sup> grade crush has proliferated for the last 4 years. It is something that I have tried to get over, but I can't. I hope you are not mad. To 4 year club: we've come a long way! To everyone I was never friends with: I had always wanted to get to know everyone well enough to call them a friend. That sounds cheezy but it's how it is. GO NAVY!

"Half of what I say is meaningless, but I say it just to reach you Julia." "I don't believe in beatles, I just believe in me." - John Lennon

## JOESEPH MARTIN BALTZ II

"I always wanted to be somebody, but I should have been more specific." —Lily Tomlin  
Freshman Year: JJ you still remember Victor? Al (AKA GB) are you a BigMac? Sophomore Year: JW rocked, nothing beats Jamie and Shnookums (AKA Eugene) going at it, well maybe Mr. Patrick taking on the whole dorm. Junior Year: Buff, was that your hole? Star, did they go bad? SENIOR YEAR: The new dorm with Mr. and Mrs. P. and Rocko. Dance sure got us in shape (pushups) huh Star, but the ballet, oh how I hated it. Swimming in the river each month! Finally some love to my buds: Julia, two more years, don't be stupid. What's up Laura J? Keep it real. Niaz I've just got one thing to say to you. "WELCOME TO THE JUNGLE!" A shout out to all members of the skins club: Keep on keep'in on, but keep it tasteful. ATG and Bill we solved everything that night, didn't we? Raza, face it you are my compsci gimp. Mr. Lisa, you sure you don't want to go swimming? Star the summer ruled: The Five-way guy and don't forget you gotta watch out cause I'm gonna beat you up and take your lunch money. Four years, thanks to all, it's been a trip. F.N. OUT.

## STARVONSKY S. GIBBS-PHILIP

So here I am, 4 years later but seems like 30. There's something almost magical about here. Maybe it was feeding Ali grapes at the river, snowball fights past curfew, the first time I rode a bike, nightsledding at Eaglebrook, wrestling with Alex L., two weeks on Pawley's Island with Joe (cough, cough), Barton3, beating Exeter with Buff, Barton's Cove with Jenny, F. Santoro, SKINS CLUB, JV football '97, yeah day students!, tipping the canoe at Camp Beckett, summer of '97!!, Prep9AJ; DB; DT, Mr. Lisa; a friend first, Yow weekends with Miff or riding Amtrak with the gang. Mr. Harvey, thank you for showing me what trust really is. Mr. Moorhead your guidance was crucial. My boys: Bill, the clause no longer applies, go get 'em. Joe, an awesome 4 years, don't rush life, it'll come soon enough. Jenny, my love, even the thought of you is beauty it self. Never change. I love you, for the person you are and the person I know you'll be. I'll never forget you. Deerfield, thank you, I have made it and you have made me what I am.

## WILLIAM DOUGLAS BRADBURY

It has been an interesting experience, coming from the ranching background of my youth to the rather exotic life of Deerfield, four-year club on the five-year plan, Star. Looking back on it I wonder why I came back, I really can't tell you now, but I sure am glad. I met some of the most interesting and impressive, as well as some of the people I ever hope to encounter. Working in the store, riding the J.V. bus to some far-off, unheard of school, staying up all night working on a term paper, taking a break only to roll a grenade through Joe's partially closed door, or to discuss the world's problems with Adam. There are so many things I got to do here; learn to skate, crawl through the McDonald's playland in Greenfield, go sledding at Eaglebrook on a school night, and swimming in the river every month of the year. There are so many owe for this. I can only begin the list; my parents, my teachers, and my friends. Most importantly, God who has given me the strength to keep on plugging even when I didn't think I could do it myself.

## ADAM MICHAEL WILLIAMS

"So many people live within unhappy circumstances and yet will not take the initiative to change their situation because they are conditioned to a life of security, conformity, and conservatism, all of which may appear to give one peace of mind, but in reality nothing is more damaging to the adventurous spirit within a man than a secure future. the very basic core of a man's living spirit is his passion for adventure. the joy of life comes form our encounters with new experiences, and hence there is no greater joy than to have an endlessly changing horizon, for each day to have a new and different sun." —christopher johnson mcanless. ## ANDREA MEGAN MORTON

Well, it's been 4 years & I admit there were times I never thought I'd make it. There were innumerable late nights & long walks down Main St, but overall it was worth every second. Jenn aka hobag: Dunkin Donuts(!), MacI latenights, Miser & Amadeus, FIRE! Define relationships mathematically, watch out for dogs that are large for their size & dial 1-800-...Ailsa(007) 4 years?! Greer! Canada was one of the highlights of my time here... Nina: Germany; +Katia: We've come so far in 4 yrs. Best of luck! Malcolm: All I can say is thank you, for 2 very interesting & wonderful years. Mall trips (every weekend), line dancing to Shania in tech, um, I'm going to go do bio now. Max! Inga: Farewell my porcupine! Next time I spend 8 hrs in a mall I'll think of you! We both belong in CA...see you there someday! Tim, you'll be fine providing gravity is constant...I'll miss you! Virginie: Blue chalk? Don't turn American! Really! Kati, my fabulous trendy neighbor, I'll miss ya! Chevone-Black pickups? JLS: We were the best hall ever & I'll miss you girls! BTW I was always dressed & appropriate! Thanks Paul & Sam for putting up with me, its time to find another Maine techie...Per. 6/7 - the best AP Bio class! Best of luck to Tech and to GROH. Carry on the GROPS tradition & some day we'll have to film Titanic II: the Lusitania...BOOM! Molech! Thank you to the teachers who guided & inspired me: Mr Bakker, Mrs Rogers, Ms Devaney, Mr Danielski for making me 1st love bio, & Ms Douglas for furthering that love. Thanks Mrs Kimball!! Thank you more than I can say to everyone who helped me survive, EP, JH, Mr. Young, Mrs. C. Thank you God for this opportunity & for seeing me thru. THANK YOU MOM & DAD! I LOVE YOU 3! I set out in Sept 95 to do the best I could & I never asked any less. The 1 thing I could never do was give up. But now it's time to move on; I have no regrets. Our battered suitcases are piled on the sidewalk again; we have longer ways to go. But no matter, the road is life. - Jack Kerouac

## RAPHAEL UCHOA MUELLER

"If you want to progress in life, don't repeat history but make your own one." Gandhi. Papi e Mami, Bá, Hipe e Nina: sempre estarão no meu coração. Obrigado pelo seu apoio e carinho durante os tempos duros. Beelitz, Fudi, Daranyi, Berglar: euch muss ich auch danken, ich bin zwar nicht mehr in Deutschland, aber unsere Schulzeiten werde ich nie vergessen, und hiermit verewigen. Thanks Taylors, Briones', Mags, Palmer (Utaught me2write), Friends, Lyman, and. Mauri. You make this place worthwhile. Huq: life goes on, though friends like us remain. And perhaps-who knows i'll come to Bangladesh in the year of brilliant water. Eddie: sin tí, me faltaría el lado latino. Nos veremos brevemente espero, pero no en Deerfield. Collin: nos marches au fleuve pour une pang sont devenues une marche pour la vie. Koji: don't forget DonRaphael, and next time put your arm around her. Kiko: pelo menos um Brasileiro, boa sorte ano que vem, segura a marra— passa mais rapido que você pensa. Star: "The night was black." It sounds like the German tourist, but back then you hadn't heard the Girl from Ipanema. Josh: I'll call her someday, I swear (if I can get her phone number) Antabi: we'll meet again @ Logan Airport. Karla: by now you should've figured out my humor. Griff: thanks for the pangs (those crazy nights in Nate's room) Joanna: you're inspiring. Niaz: keep movin'. SammyJ: don't worry, I can handle both (you know what I'm sayin'), and don't argue w/ me- I'm not a debater. Mack: the offer to Brazil remains. ## JOSH JAMES SADLER

"What a noble mind is here o'erthrown!"-Hamlet. And was it, then, worthwhile? Only April knows for sure. First I should attend to my Deerfield acknowledgements-which, while few in number, are certainly heartfelt. Niaz: you may be the love doctor, but can you handle my moves? Tariq: my Bengali friend, remember the pool of happiness. Raph: c'mon, tiger! I'm holding you to that promise, buddy. Georgi: thanks for the late-night help, we'll play chess someday. Pee: keep taking pictures. Lange-Geise: shaving gel attack, Deerfield needs a steel-toed Budapest. Koji: cone-shaped brain mass, mhm, uh-huh, sure, yeah? Hiro: stay cool, work on the jumpshot. Panos: pingpong violation, can I get a witness?! Mr. Palmer: thank you for your green pen, you taught me how to write. To whom it may concern: "your attitude toward your calculator should always be one of condescending pity." Apologies to those left out. And to those I might have known, perhaps we'll meet again. Now for my harem from Downeast. To Vals, my best friend: you are truly wonderful, we'll always be more than just words; Laura "hey! me not see you! me naba! doo moh!", but of course I did see you, it's been cool having you a local call away, and I hope we both end up where we want to be; Jen, the rec was special, as are you, and we can always get some free fries!; Kate, you are my close friend and all-time favorite prom date; Terin, EBH is the place, I'm glad we're bien amigos now; Julie, once and for all, the name is SAC, so don't even try to resist; and to the others, you are not included yet not forgotten. U all phat. To my buds-Wiley, Andy, Sheik Abu El Nour and all the Acadians guys: U phat 2. And to my parents: in the end, I have you to thank the most.

## GEORGI MILKOV MATEV

There are moments in our lives when we must turn back and think of what we've been through. USA was a dream and DA made it real. Mr. Briones thanks for bringing me here. A few good friends are worth a fortune. I'll remember you all: Tariq (will read your book on Bangladesh) Niaz (hope you'll have happier times) Josh (no more Calc.) Rafael (learn to use your Brazilian charm) Pee (keep taking pictures) Colleen (loved your smile) Ted\_P (get your thoughts together) Calvin (get some sleep) Kwaku (keep challenging yourself) Koji (waiting for your first film) LM1N (guys you're great) JV Soccer (we won) Thanks to all my teachers: Mr. Bonanno (love your style- notational elegance) Mr. Littwin (literature-there's still hope for me) Mr. Albertson (How was your lunch? ☺) Mrs. Silipo (you're really patient with me) Mr. Cumming (more back-in-Alberta stories?) Mr. & Mrs. Henry, Ms. Dorey and all the rest. Thanks to my family and friends in Bulgaria: though far away, I always felt your support. Thanks DA for all you gave and took from me.

## PEE SEEUMPORNROJ

When I arrived here in September, I was clueless about this place. I didn't know the language; I didn't know the people. The only thing I knew was that I had to get all the applications, SAT I, SAT II, TOEFL, and school grades done in four months. Overwhelmed by work, I felt that every place: dining hall, dorms, classrooms, seemed to be dark and full of burdened tasks. However, the calmness of the Deerfield river tranquilized my stressful life, and the joy of the soccer team made me a young knight with a smile on my face. I started to enjoy the sunlight over the Pocumtuck Range. My one year here is one of my best years I have ever had. I have learnt more about the world and more about myself. I have made as many friends as a new student in a new country can possibly to make among both faculties and classmates. I have never let any days pass by; everyday has brought a new lesson for me. Thank you Deerfield for this wonderful gift and wonderful time.

## NIAZ ANDREW KARIM

It's been an interesting year. To all of my friends. Lange Geise: My DC brother, My head still has a bump from that time you used it to open my door. "I'm going to the Greer with my friend Lange-Geise and Ta-r-e-k" (freestyle) Josh: We definitely went through a lot together this year. Anytime you need the Love Doctor's advice... - For my posse in the LM Common Room: May I say one thing... do you know who a hot, hot, hot mama is? JS, PK, AB, JR - 1010811 - \$350! Say what? Vartech?, Wait, I have a new move... \$9 and I'll break it down on the table. CLee, et. al. Sometimes when you guys beat me up, it really hurts me down in the "ticker" GMatev: My crazy Bulgarian friend, I'll remember that one day when you started throwing ice at me. I'll miss the late night talks. Pee: Keep taking those photos - the five Musketeers, any day Joe Baltz: I just have one thing to say to you - Welcome to the Jungle... Koji: My film-making friend; I look forward to seeing your Oscar. To the rest of my friends: Thank you. I'll remember the laughs and the good times.

## TARIQ ADNAN HUQ

My words fly up, my thoughts remain below: Words without thoughts never to heaven go." -Shakespeare, Hamlet III Corgito, ergo sum (I think, therefore I am). -Descartes After two years, Deerfield is impossible to express in words that capture all there is to say. I thank God for the opportunity. Mom, dad, thanks for the love and support. Raph- the suave Brazilian ways are entertaining yet somewhat questionable; don't worry, we'll all find Rio someday. Thanks for making everything worth while. Koji- don't forget to leave me that part in Hollywood. Hiro - you'll get NUKED one of these days; Jaime H - I'll be over to whine and complain and mention those two dinners again; Karla - The next time someone thinks I'm Saudi, I'll send them over to you for clarification. Yoo-remember to jump over P'ton, for whatever its worth. Antabi - Riyadh will never be the same. Kwake - Why are we up at 2am talking about Indian moguls. Josh - for the time being no more poetic requests from me. Try that on R'ya, so we can compare notes. Niaz, For nine bucks show us "the moves" on the table. Sammy J- leader of the death squad in Bengal, speechwriter, or theologian? Chose wisely. Matev - ready for a sixteen pager in english? LG- 11-6 was a fluke and you know it. Adrian- another all nighter in econ. Why do we do this to ourselves. I guess I'll never find out. Tell Kelvin to get some sleep. MN, HJK, NK- The three greatest friends I've come to know over the past four years. Distance never really separated us, and it never will. Mr. Palmer, I'd still be searching for that impulse if it weren't for you; you made it happen. I can't thank you enough. Thanks Mr. O'B and Ms. Hannay for inspiring me; Thank you Ms. Vis for lifting my spirits. A great and royal animal is dying all through the night under the jasmine tree with a constant stare at the world. - Yehuda Amichai

## ELIZABETH CUSTIS URSTADT

These Days at Deerfield are Everlasting. So much has changed since the first day of school, three years ago. I have grown to love and appreciate all that Deerfield offers—my friends and teachers; the beautiful ridges and river; the atmosphere. "Nobody sees a flower, really - it is so small - we haven't time, and to see takes time, like to have a friend takes time." (Georgia O'Keefe) Without the many conversations and laughs and cries, an essential component of Deerfield would have been lost. Thank you to all who have made me smile, and made me wiser. Lindy- thank you for understanding (mental telepathy) and being a great entertainer. I will never forget our late night chats and disco dance parties. You're awesome! Alex- you're Damn Good!! I will cherish our deep conversations, and outbursts in Cambridge. We will be identified- à cet été! Caroline- one of the most generous people I know. I will remember the dances, late nights for Cambridge, and our treacherous Rock trip. Let's ride the horses to the ocean in Costa Rica. Joanna- so thoughtful and compassionate about life. Let's have more conversations by the fireside, drinking tea. Laura- show your wild side more often! I will remember our sojourn in Europe fondly, and driving down a one-way street. Gness, David, & Jasper- France was hyper-cool; Cambridge too. Charlie's Angels- NY was grand. Chiquitas with good-girl attitudes, tinted green hair, and plants in pot\_s. Late night dining was fun- spoons, hearts. Midnight walks...defying curfew, and evenings at the People's Pint. Thank you Mrs Bonanno, JP & Ms H., Ms Lyman, Ms Vis, Ms Valk and Mrs Moorhead. You all helped me tremendously throughout my years here, and I will never forget your kind and insightful words. Thank you Mom and Dad for letting me decide. I wish you could see me now- you would be proud, and your eyes would glisten. Jordy and Bryant- you are the best brothers in the world! Three squeezes- I love you.

## BRIAN THOMAS SCHMID

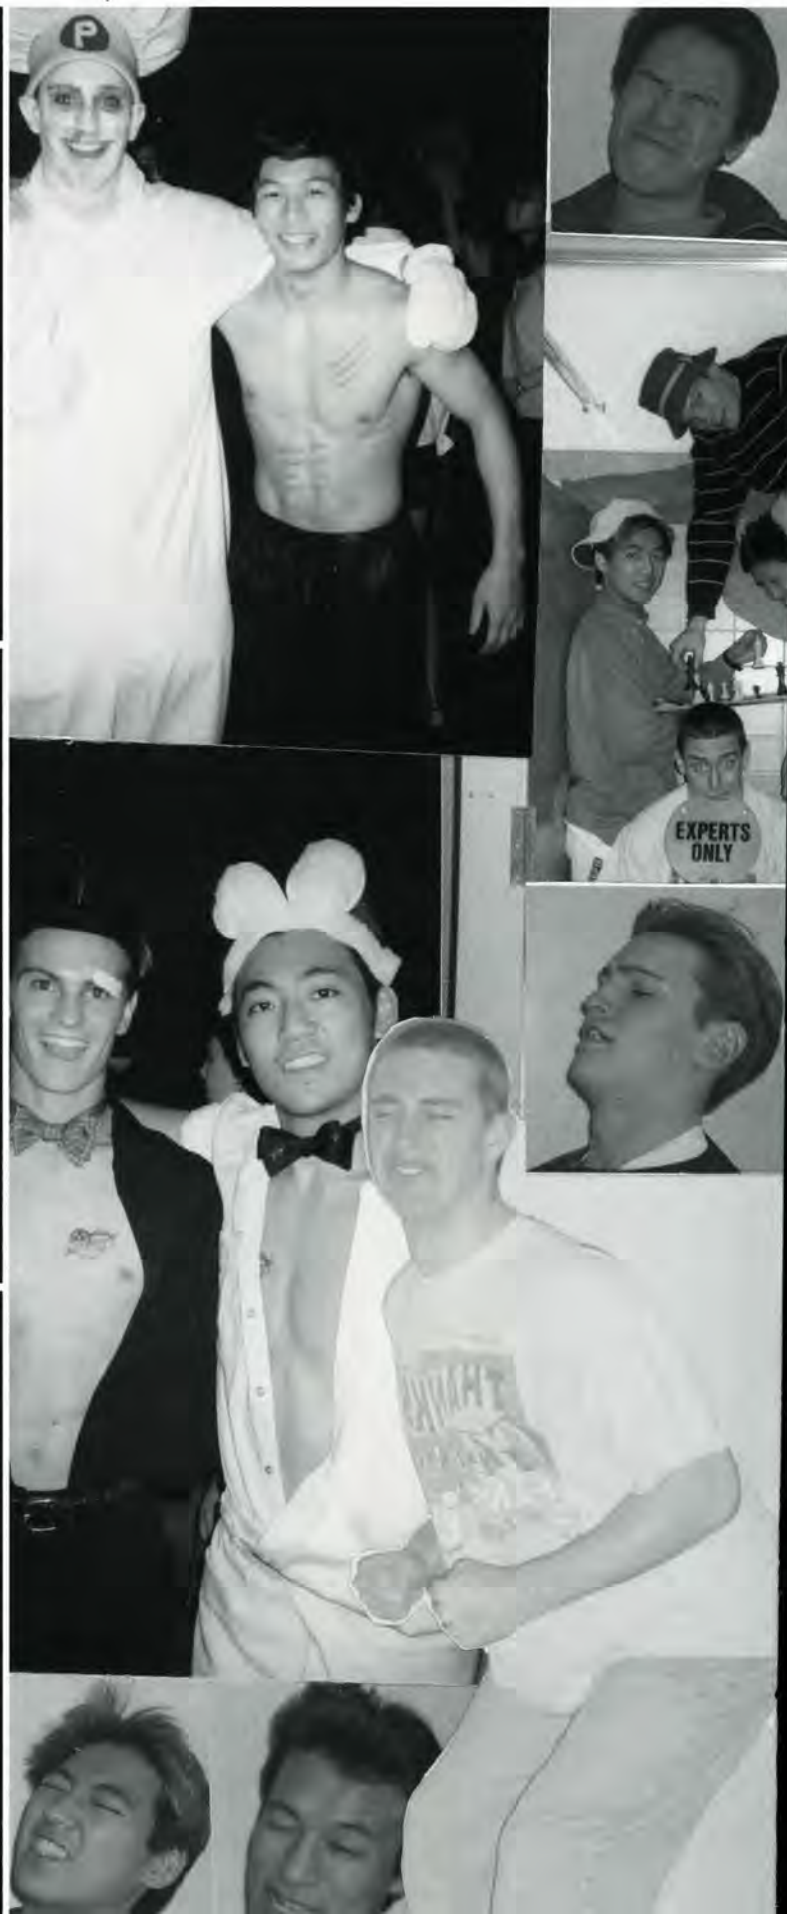

What can two-thousand characters really say? Three years is a good long ride. Deerfield has been a home to many greats, can I be the next one? It all started in '96. JW, and my first wrestling match with KP. Larry, Ian, Mike, Wendy: the best. JQ always was the quiet one. Don't believe what the Scroll says, big man! There's no stopping someone like you, so don't stop yourself. And then, there was...the Smell! The JW circus lives on! Then it was off to Barton. Pandolfi's: Whether you like my music or not, let Tony make his own decisions. Maggs, you were the best friend a white boy could have. JQ, stay off the third floor! I took Okeh and Logan on...yeah! If only all the same people were in JD! Finally, Senior Year! Scaife boyz represent! Dr. Wright, keep on truckin, and keep Ram on the diet. Hiro, Ryuji, Jamie...best proctors ever. MC, stay away from George! Rafi, make up your mind! Brooks, size don't matter! The Attitash fest! Buddha and the little tokeing troll. Mo, you are a special person. If it were anybody, you'll make the difference. DA Mascot, Me? SAC Man liveth! To the Memorial Building Squad! Finally real people! Reese, am I good enough? I hope so. Star, you are different also. To everyone else, what would it be w/o you? P-man, Buff, etc. Coach Silipo:3 of the greatest seasons of my life, even if I was out half the time. I learned more from you than any classroom could deliver. I hope I have done what you asked, and picked up a little of the American work ethic. Where would I be without the fam? Gretch and Jen: you always treated me like I did something to you, but I usually had. We had our good times though, and thanx for toughening me up for life. Mom and Dad...what else? I love you guys more than anything. Mom showed me how to be aggressive and get what I want, no matter what the cost. Dad, you showed me how to do it nicely...all of it. Deerfield, there aren't enough words. You've done your piece, now it's my turn. Catch y'all on the flip-side.

"We don't receive wisdom; we must discover it for ourselves after a journey that no one can take for us or spare us." -Marcel Proust

Thanks Deerfield for providing me with the guidance and opportunities to succeed beyond the normal path.

"In the midst of our daily lives, we must find the juice to nourish our creative souls." -Sark

Thanks to all my teachers for their support: Mr. Engellend, Mr. Heise, Mr. Hindle, Mrs. Whitcomb, Mr. Hinkley, Ms. Lyman. Thanks also to all my great friends who have inspired the great times and made the hard times bearable: Britt, Ryuji, Eugene, Brian, Hiro, Luke, Josh, Jasper, Kallop, David, Amory, and many others. Three years was ideal. I couldn't have asked for better dorms. JW-sophomore year, Doubleday- junior, Scaife-senior. My proctees are awesome. I will come back to see you shine. Thanks most of all to my family: To my sister, to my mother who taught me: "Life doesn't require that we be the best—only that we try our best." -H Jackson Brown Jr. Thanks to my father for his inspirational words. In the future when two roads diverge in a wood, I hope to take the one less traveled by, and that will make all the difference.

## EUGENE YING HO WONG

Well, well, well, senior quotes. Isn't it weird that after four years of high school, the last piece of work that gets published from our time here is the most grammatically incorrect thing we will ever produce in our lives? Ironic isn't it? Well, since Deerfield has taught me to be a strict conformist, I will follow the age-old traditions and put aside every grammatical rule I have ever learnt (you must also realize that I'm actually writing all of this because they changed the limit from 1000 to 2000 characters. Therefore, I have to BS as much as I can): Wo Hoo! I'm finally out of this rat trap!!! I mean...uh...time passed so fast. Mom, Dad, and Michelle thanks for supporting me through all of this. **SoPhoMore:** 2 minutes before my first sitdown meal: "Uh, how do you wear a tie?" PinG PonG every night with the JW Crew. What do you mean this **FrEaK** is in all my classes?! DaMn it, my Butt hurts. **Yoo,** where is my MoNey?! **Lange-Geise,** you have to stop sonning people. **Mark,** my brother, keep up the Kung Fu and Nunchukus. **Tim** can you play Slide yet? Rafi, thanx for the meal at the Ritz. **David,** thanx for all the meals, good luck at Yale. **Hunt,** I hope that I will never have to see you EVER again... I mean, I'll MisS you MaN. OK I think I have 2000 characters now.

It's over, and where's the time gone? It has been the best times of my life; I will miss and cherish them forever. **Mom, Dad, Owen**-Thanks for being the greatest family, and my best friends. I love you so much. God-I owe it all to you. I've done the best I could, gave it my all. Tried to be as good a person as possible and live by these thoughts: "a life is not important except in the impact it has on others", "If better is possible, good is not enough" "Do not wish to be anything but what you are, and try to be that perfectly" "winning isn't everything, it's the only thing" "It's not what you've got in life that counts, rather, it's how you use what you have" "the quality of a person's life is in direct proportion to their commitment to excellence" "what do we live for if not to make the world less difficult for others?" "we make a living by what we get; we make a life by what we give" "No act of kindness, no matter how small, is ever wasted. Let no one ever come to you without leaving better and happier" "B-ball-a true love. Faculty and staff-thank you: *Czar, Maags, Rev, coach D, Mrs. Carlson, Ms. Hannay, Mr. Fraker, Pitcher, and Frame.* **Class of 99**-we've done it, thanks for the memories, we are the best. Taking with me great memories: the cock, Hector and Rodrigo-I won, Btown(so.+sr.), PC, SC, late night bonding, sporting events, IM, Stratton, Proctoring. **2 those students who have meant something to me**- "A lot of people come in and out of our lives but only a treasured few make a difference, leave an impression of love that lasts forever, only a few are as special as you." You have made it all worth it and mean the world to me. Thanks to each you for the moments and memories. I've loved spending time with you smiling, laughing, and having fun. We are going our different ways, but you will stay in my heart forever. **DA**-thank you, you are the greatest place there is. I love you, and will miss you.

The student-athlete has become a significant tradition of the Academy since the days of Frank Boyden. In the wake of the bicentennial, athletics still prevail as an integral aspect of the development of Deerfield boys and girls. Athletics contribute to the well-rounded student by allowing them to make close relations with their teammates and coaches. It is a chance for Deerfield to display pride and school spirit as well as serving as a break from the tough academic schedule. Today sports are recognized as an essential part of the Deerfield experience.

### Heart-Pride-Family

Heart-Pride-Family. The 1998 season exemplified Deerfield football at its finest. Day in and day out, the players carried the pride and traditions of Deerfield football in their hearts.

We kicked the year off with a dominating 16-7 win against rival NMH, a team in which Deerfield had not beaten in the past five years. The following week the focus changed to revenging a one point loss in the final 32 seconds against Taft last year. In front of a bicentennial crowd, we showed that Deerfield football had not changed throughout the decades and won by a score of 28-14. Along with winning, we learned what it felt like to lose in the next two weeks. In week three and four, the last two minutes of each game haunted us. Playing through a monsoon at Hotchkiss, we fell 7-6, and in front of a Parents Weekend crowd, we lost 6-3 to Loomis. Now with our backs against the wall, week five marked the turning point of the season. Travelling up to Exeter, we won 17-6. With gained confidence and a sense of pride in the team, we were faced with a new challenge. Week six brought on an undefeated Andover. In a defensive battle, pride and unity of Deerfield football players prevailed in a 7-6 victory marking the pinnacle of the season. In week seven, the offense took over, slaughtering another undefeated Avon Old Farms 42-16. Choate Day. This would be the last time this family of football players would enter the battle field together. From the opening kickoff to the final horn, we dominated Choate, resulting in a 19-7 victory. This day was a bitter-sweet day as many seniors said goodbye to Deerfield football, or in some cases Deerfield athletics. More importantly, it marked the end of a very special season that none of us will ever forget. Thanks to all who were involved in making this season an unforgettable one.

To Coach Davis, Lindsay, and Albertson: Thank You for the memories and the lessons learned. To Coach Silipo: As you compare your future teams to the "benchmark", we too are comparing our future life experiences to those you've taught us. To those brothers who follow: "Carry on the tradition". (quietly confident)

"The best sporting event ever at Deerfield" is how fans once described the 1998 Girls Soccer team, but "a group of best friends" is how the team members would describe themselves. When your team was recognized as having played the best sporting ever at Deerfield Academy, you have a lot to live up to. With heart and determination day in and day out and risked failure at the aim of success. And success is what we had. Success not only from winning but success from having fun. From Jess's celebration dances to Katie's McDonalds obsession to diving headers and inspirational meetings in the dark, this year's soccer team was not led by two players, but by a whole team. Even though we left Jimmer stranded at Kent and Valk jinxed Katie Guay, we all kept smiles on our faces and had a near flawless season. With the help of the Jackson Five Playbook and Valk's short messages we ended our season 16-3. Beating the defending New England Champs and going on to a seven game winning streak can only be categorized as amazing. Although World Cup will never be the same with the retiring of Argentina, Bolivia, and Zaire, we leave it up to you to slaughter Transylvania. Special thanks to our fan club, Norm, Dottie, Ron, Loftus, Mr. Hammond, Czar, and of course our anonymous fans. Thanks to the tupper-wear and juice boxes and Julia. Jules, we've reached 23, the counting is over. Guys, it has been a great season, and we will miss you always. Promise us one thing, beat every team that brings a radio into our house! Good luck next season and have fun.

Court is adjourned - Judge Ito and the Predator saying goodbye.

The Boy's Varsity Soccer team that took the field in 1998 was well balanced, combining a compact group of returning players, a handful of last years sub-varsity players, and a skilled group of new Deerfield students. One of the greatest attributes of the team actually was its depth. With only a small margin between starters and second string. After rebuilding the team last year, Coach Heise and Coach Keller took the team a step farther, not only trying to enhancing our technical abilities, but also trying to teach us variety of tactics which we could apply to the game.

The team, led by captains Chris Wallace ('98) and Porter Hill ('99), started the season looking to make New Englands, which was in itself a gigantic step from last year. We won our first game playing well, although not so much as a team. Things looked good because of the large amounts of talent the team possessed. We continued to play well, but we were waiting for a breakthrough game that would set the team on fire. Hotchkiss gave us that opportunity. If all the rumors that were circulating about the Hotchkiss soccer team had been true, they could have won the World cup easily. Un-phased by the rumors, we took the field and within the first five minutes led 1-0, with an unbelievable goal by Ben O'Donnell ('99). Unfortunately, the Hotchkiss team was extremely well skilled and ended up beating us 3-2.

Despite the loss, however, we knew from then on that we deserved a spot in the New England tournament, and this drove the team. Two of our other big games were against Loomis and Choate, both of which were ranked above us. Although we lost in both cases, the games were close, 1-2 and 0-1 respectively. Had a few things gone the other way, the outcome could have easily been different in both cases. We owe much of the season to Porter Hill ('99) and Ben O'donnell's ('99) leadership in the defense, Chris Feldmann (PG) leadership in the midfield, and Chris Wallace ('99) on offense. Rob Fried ('00) once again anchored the team in goal, thought by many to be the best goalie in New England. Unfortunately, these close losses were enough to knock us out of the New England Tournament.

The team still made some great improvements this year. We were able to grasp two different systems of play and every single player increased his technical skill. Since we have a large body of returning players for next year, we will be able to carry our new abilities on with us, and fulfill the promise we made sophomore year: Be a New England finalist.

### The Year of Spandex:

The '98 Varsity Volleyball season was one of the best ever! With hard work and determination we were able to compete strongly against top ranked teams such as NMH, St. Paul's, and Choate. We worked hard but we managed our Greer Store conditioning practices and occasional ice cream runs.

With Tamar's devotion to spandex, Rachel's froggy blocks, Chandler's running monologue, Penelope's sprained ankle, Lizzie's singing, Ali's double sport bras, Chivon's fans, Louise's backward spandex, Lindsey "smurfette" Albertson, star rookie, Natalie Johnson, and a pregnant coach, the '98 season proved to be successful and memorable.

For the first time in volleyball history the '98 team played Choate, made it to the New England Championship, won more games than we lost, and we wore SPANDEX! Thank you Mrs. DeBord for your patience and encouragement and thanks to our dedicated manager, Felicia. Louise, good luck next year - you'll make a great captain.

The team discusses strategy before the second half.

The 1998 Field Hockey team was young and talented. Julia Filip was a wonderful surprise during preseason. An intelligent player, Julia was a strong defensive leader throughout the season. Tally Burne was an energetic team player who found her strength in the midfield. Leah Hagamen, a disciplined player, consistently kept the ball wide. Bea Gratry was so quick on the JV field that we pulled her up to become one of our leading scorers. Jess Davison, another junior returner, was quick to learn new plays and held her position in the circle well. Brooke Christian was a patient offender who always followed the play in order to deflect rebounds. Maggie Brown, a returner, was a truly remarkable player who brought humor, strength, and intensity to the field. Liz Carr was both a vocal and physical presence on the field. She played with pride. Quinnie Kenworthy's experience and talent brought the intensity of the team to a new level. A remarkable athlete and spirited player, she will be an incredible captain next year. Emily Peterman, a goalie, displayed incredible strength throughout her injury and unpresidented devotion to the team. Tamar Chalker, another goalie, stepped into the new position with ease. By the end of the season she was a wall. Katie Boucakis, a spunky addition, thrilled us with her reverse sweep and speed. Ailsa Cumming, a returning senior, was a tough defender who worked hard. Kate Perine, a strong leader, was a poised and confident player. Thank you all for an amazing season. You worked hard and loved the game. Good Luck next year!

From summer we came for preseason fun,  
Oh, how we loved those 7 am runs!

Leaving last spring we expected only a few,  
We started off with only 8, but our team slowly grew.

We started the season at Canterbury with a blast,  
Coming in first, we must have run pretty fast.

Starting the tradition of dancing before we ran,  
To Canterbury we car-hopped to Footloose in the van.

Throughout the season we only got better,  
Meredith and Emily B. were our best sweat-ers.

From Northfield Mountain to running over the Eaglebrook peak,  
We will never forget, "Push it. It's the end of the week."

At our practices we always shared lots of laughter,  
But we got more exercise eating doughnuts after.

To Mattea, Jess, Mer, Cath, Katie, Kelly, Gaia, and Colleen,  
We are so psyched you were a part of the team.

To the Emily's, Molly, and Ms. Henry:  
we've loved running with you through the years,  
You are the reason we ended the season with tears.

Captain Colleen, Keep them in line,  
Girls, Good luck next year, we've had an awesome time!

Thanks guys, for all the memories.

Love always,  
Jill and Sarah

The 1998 Varsity Cross Country team had a banner season, placing second at the Canterbury Invitational, winning all regular season meets, and finishing third in the New England Championships. The team was led by the "gleesome threesome" of Pat Bensen, "Psycho" Bob Gilbane, and "Av-Dawg" Kramer. Mr. President: Get Down Kempner! Integration. D.C. Hardcore, that's his name; boot, rally, that's his game. God's misguided children. Tyler Webb: party? what party? Pat Bell - sure put a dent in that Chevy. Avi: Jess, Louise, Colleen! The two sisters. Philip - Filip? WANDA (Calypso?) Ryan - Bub's BBQ (it's gonna happen); so where did you get those 20 tuxes? We may be going to hell, but we'll win a few meets along the way. Pat - PB&J! Oh, Molly - Jesus. Porter's 11 siblings. Frisbee on warm-ups. Mr. Brush's anaerobic work-outs. Thompson - Super Bowl. Eno - Ms. Koppe. Rafi and the field trip to Circuit City. Dance - magic! Mike Sweeney - CSL. Running down corn fields and pumpkin-bowling. Jon Miller - Purple Heart. Parker - Will Everyone Eat Dinner? Trumpy, Trumpy, he ain't stumpy! - Pam. Dan the man. And finally, in a manner befitting Odysseus, we pledge our undying love, humility, blood, sweat, tears, devotion, and dedication to the greatest men ever to coach the sport of cross country: Peter Anderson and Steve Brush.

The Deerfield boys take off from the starting line already ahead of the pack.

The girls Waterpolo team of 1998  
Entered the fall season looking great.  
Preseason intensity in early fall  
Showed us that we had the determination to take it all.  
Under the tutilage of Bakker, Davies, Murph-Dog and especially Snake.  
We put on our "Hats" and left New England in our wake.  
Lisa and Abby, after goalie camp in Long Beach,  
Blocked shots, made assists, and put a win out of the other teams reach.

While Jordan was a "secret weapon" with her awesome left hand,  
The performance of Little Cate Murray proved to be grand.  
Sally provided intensity, sunshine, and blood.  
And Katie Fay's aggressive speed created a flood.  
Caroline, it looked like she'd jumped from the bottom with her sweet skip shot,  
While Chris's ball handling helped us a lot.  
The two Katherine's rocked! One's speedy, and the other watch out for that bite!  
Adele throws elbows like it's her job,  
And Sarah D's play is not just for Rob.  
Liz and Waldo stepped it up and got mean,  
And, last but not least, Mr. Scandling coached us to win for the green.

With our signature phrase "put the lotion in the basket!"  
We played together and sent our opponents home in a casket.

1st and 2nd waves, 1st and 2nd season,  
Rainy day practices, warming up to the Titanic song, Colin, the boys team, and sweatshirts were our reasons

TO TAKE IT ALL!!!

During a quick time out, the team regains strength and talks over some strategies.

### **Building Character**

This season the 1998 Boy's Water Polo team grew in every respect. We started out with only four returning varsity players and a whole squad of anxious players ready to step up from their last year on JV. We began the season playing with patience and time, waiting for our moment to come. The team went through tough times the entire season, but was never broken.

The team did show inexperience starting only two seniors, four juniors and a sophomore. We began the season with a close loss to Williston and a humbling loss to Exeter. As the season continued, we never let our heads fall and we continued to improve our skills. The continuity of our team improved with every quarter. We looked to everyone to step up in each game and everybody played their hearts out without recess. The team was led by co-captains Ryuji Yamaguchi, who was like a tomahawk on defense, and Drake Richey, who was the enforcer. Tim Stanne was our center manne on offense and scared the league with his really dark tanne (and his torn around shots). Martin Mumford was money on defense. Colin Shaw's sprints and fast breaks, outbursts of goals and flying elbows made him well known. Ted Lubin was rock-steady in the water, and his skip shots were nearly unstoppable. Mike Olcott came off the bench to simply own the pool in almost every game. Andrew Armstrong ran from the football field to the pool where he was simply a stone wall in goal and frightened everyone in the league.

Through the season, we achieved our goals while being patient and waiting for the team to come along. When teams across New England began to count us out, the Boy's Water Polo team never gave up. True Deerfield Pride was displayed. Anxiously, we wait to surprise the league next year.

The 1998-1999 boys varsity hockey team started its campaign this year with a solid crew of returning veterans and an equally ambitious crew of new comers. Although there was a diverse mix of age and experience on our team, we all quickly had one goal; to get back to the New England Tournament.

#### Intensity

The proving ground litters a fresh sheet of ice. The crowd is already there - banners of green and white on one side, red and black on the other. The restless wind outside, prophesying storm, transfers itself to the bovine rustling of people shifting and whispering. Glaring at each other from across the arbitrary line that separates them, each side snickers, elbowing friends, saying, "Look at that one."

Without announcement, the players take the ice. The crowd is too busy antagonizing the other side to notice right away. When they do, their roar rattles the roof. Blindly they cheer for a game they do not play and do not understand. Merely, they worship the gods of the game, skaters gliding lithely as swans. But this pond is ice. It is only a game and it is more than a game. The players stretching their way through preliminary warm-ups don't hear the crowd. They did not come this far to get distracted now.

Crouching, coiled for a strike, the players line up at center ice. The crowd hushes as the puck drops and rages once again, barbaric, animalistic and wild. The skaters are no longer elegant swans but deadly birds of prey, dangerous and focused. The fire burning in their veins to win pushes them faster and fiercer. Both teams are the "good" team, the "right" team, but each knows only one can win. You can see it in the grimaces on their faces. In the sweat running, dripping onto the ice. In the swing of a gloved hand after the whistle. Even the crowd has dulled its wave of sound into bitten fingernails and nervously tapping feet. "Ha," a green player laughs boldly into the face mask of a red one who dives after. Pulled off by the ref, the green one laughs again. Sweat, intensity, and audacity will win this game.

Yet at the end of play, the score is still even. They must return to fight another round in this ring of ice and fire. The intensity boils into rage and it seems as if the face masks are the only thing keeping the players from eating each other alive. Abruptly, even as the crowd is sure the game will continue for another round; it is over. Shaken for an instant, the crowd explodes. The players are shaken themselves but raise their weapons in a salute of victory. They've won! Members of the crowd, unable to contain themselves, leap onto the ice. Our team has not failed us. On and on, the happy, violent storm of winning scars the losers' ears.

Yeah, Yeah! Some people called it a losing season, but we beg to differ. Yeah, Yeah! The stats were not in our favor, but hey, who needs 'em? Yeah, Yeah! We had fun, and that's all that matters. Yeah, Yeah! We had some spectacular wins that we will remember forever. Yeah, Yeah! Thanks for playing with intensity. Yeah, Yeah! Finally, we would like to thank Agent An and Pear. Yeah, Yeah! With the skill and amazing shooting of post-grad Chris Bray who led the team in scoring and three pointers they were able to have a winning season. For every game, the gym was filled with tons of fans to watch this team who had so much heart and determination to beat the odds and win. Games were usually close and were won down the stretch by clutch free throws and smart play. Co-Captain Dennis Kiley led the team with his intense play and "never die" attitude. He ran up and down the court looking for steals and interceptions and was the epitome of a team player. Kali Gairy and Co-Captain Nate Lindsay were the "twin towers" under the hoop. Point guard Avi Kramer and shooting guard Kevin Dixon ran the offense to perfection. Overall the team exceeded all expectations and had a very successful season.

The Girl's Basketball team had a tremendous regular season with only one loss. Although they lost in the first round of the tournament, their season was still very successful. The team was led by Co-Captains Adele McCarthy-Beauvais and Alison Rachal. Adele made All New England team and was the leading scorer for the season and finished her basketball career as the leading point scorer in Deerfield history. Alison was the emotional leader on the team playing the shooting guard position and serving as a threat from the outside. Alongside Adele was Liz Carr, captain elect for next year, who provided strength and excellent defense. Adele and Liz dominated the low paint and proved to dominate every other team's low players. Point guard Katie Boucakis, captain elect, had incredible moves to the basket and ran the offense perfectly. Post-grad New England all-star Kate Perine had an amazing shot combined with quick moves to the hole. Junior Quinnie Kenworthy, captain elect, provided speed to the fast break and shooting from the outside. The team was coached by Ms. Henry and Ms. Hager and next year will look to Mr. Churchill as another coach while Ms. Henry is on sabbatical. They will miss her guidance and love of the game. Overall, a great season.

A rebuilding year for this year's team, the boys used heart and determination throughout the season. With captains Jasper Turner and Nick Johnson, leadership was key. Stuart Brown provided skill and smiles to this tough season. Other letter winners include Ben Cooley, Timothy Loh, Chad DeLuca, Jason Lam, Andrew Sbarbaro, and Adrian Aw. The team had big matches at Avon and Exeter with close wins and close individual matches. Coached by Mr. Silipo, he led the team in teaching new skills and perfecting the old ones. A great season at the end.

When the 1998-1999 Girls Squash season started, we knew this was going to be our year. With seven returning players and two new "recruits" from GA, our team had depth and power. Sophomores Emily Coleman and Laura Delano, playing #1 and #2, started up the long line of talent. Following were senior Ali Roche and Penelope Miller, each of whom brought experience, consistency, and leadership. The kindest girl on the team, Lindsey Burnett held up to her #5 position. Amory Bradley and Halsey Anderson rounded out the top seven. Lindy Stanley, Ashley Hilton, and Heather Vance brought the team together. The determination, effort, and spirit displayed on and off the court lead to an UNDEFEATED season under new coach, Ms. Heise. With our success came many memories: Laura as Rocky, Ali's forever missing glasses, Lindsey killing 'em with kindness... then there's the opposite, rustling in the back seat, Heather and her February tan, Lindy with her English tips, Ashley and her "squash stories" ("I'll only put it in once!"), Emily and Ali's family feuds because not everybody can date a Kiley, Amo-nition, Ms. Heise: Don't forget to take your vitamins, Mike and Ikes. Did you ever wanna see a porn?, six sets of sixes, broken vans, near death experiences on the road, the stolen bag, Coach: It's Amory, running in the 20 degree weather, team lunches?, Becca and Katie's cool quotes?!, the team moms, snazzy new uniforms, and the Victories over St. Paul's and Greenwich.

Unfortunately, we didn't get lucky when the New England Championships rolled around, but we managed to pull off a third place finish. Looking beyond the disappointing end, the Girls Varsity Squash team had an amazing season, finishing with a final record of 11-0. Thanks Ms. Heise for all you support and encouragement! Good luck next year..... and kill GA!

Love,

Amory Bradley

Although the Varsity Boys Swimming team had a rough season, it was a time to rebuild. After losing so many all-star seniors from the year before, the swimming program had to look towards its younger athletes for results. The season started out looking very bright with a 101-46 win over Milton. However, this would be the Big Green's only win for the season. Led by Captain Steve Porter, the team did not lose composure through the turmoil. His leadership ability helped to keep spirits high and to have fun during long road trips. Next year, the swimming team will consist of mostly returners who will have had much more experience. Coach Mr. Boyle has faith that his team will be able to bounce back after a rebuilding season and will return to be one of the most prominent teams in New England.

### LEGENDS NEVER DIE

“When nothing seems to help, I go and look at a stonecutter hammering away at his rock perhaps a hundred times without as much as a crack showing in it. Yet at the hundred and first blow it will split into two, and I know it was not that blow that did it but all that had gone before.” -Jacob Riis

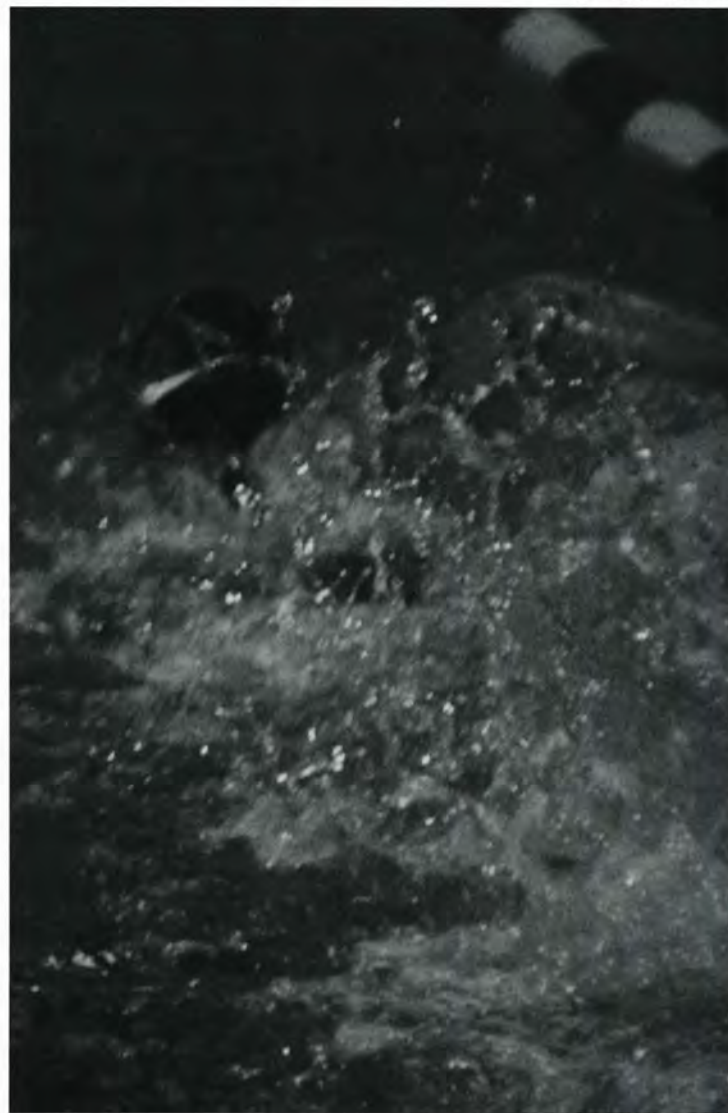

For the five “rinky-dinks” who were freshmen four years ago, this swim season symbolized a full circle back to the New England Champions. Finishing with a 7-2 dual meet record, but more importantly a New England victory by more than 70 points, this team was the most successful Deerfield has seen in a while. With New Englands being held at Deerfield, we watched five pool records fall to Deerfield swimmers. We won all three relays, and in doing so set new pool records.

This season, however, was in no way smooth-sailing. We were constantly plagued with various injuries, making our team the most frequent visitors to the trainers. We were never without one or two “kicking only” lanes, but Garth and Molly’s ‘N-Sync’ kept us high-spirited during those long drylands. The hard work did pay off at the end when we went in and smothered the rest of New England, including Exeter and Andover whom we had previously lost to. Our divers pulled through for us at every meet, stepping up and often placing 1-2-3.

Ms. Davies kept us entertained with her jokes and stories, even though we dreaded her Thursday practice. She kept us well fed with personalized cupcakes. Our dinners, skits and Psychiatrist games at Ms. Robertson’s helped us get to know the real side of our team.

The success of the Varsity Girls Swimming and Diving Team was not without hard work and perseverance. Our spirit and depth carried us far in the end, and our strong group of seniors led us well. We’ll miss you all next year. Keep the tradition alive!

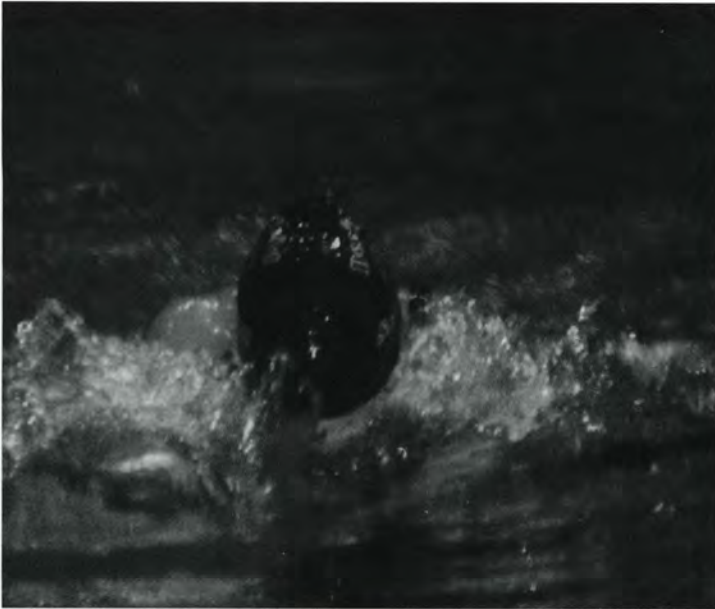

Love,  
Danielle and Megan

The ski team had a fun and enthusiastic year which began with a refreshingly intense preseason lead by Nic Dawg! (5...4...3...2...1) From pool practices to ultimate frisbee we were ready to hit the snow...in January. Thanks to Matt, the coach who didn't talk, and Danceman, for their efforts in course setting, we were psyched for every race. Bus rides were always entertaining thanks to "Balls as BIG as...", Falker's excitement for the sport (HV), and Kallop - what did you lose now? Ging, what's the duct tape for? We finished up strong, pushing the van out of a snow bank at Megan's house. And, oh yeah, we skied well! Thanks to Ms. Nichols, we will miss you. Good luck and ski fast everybody, we had a blast!

### Strong as Ever

This year the wrestling team went far beyond any expectations set for them. It was supposed to be a rebuilding year, but with a third place in Class A's and a fifth place finish in New England's it was nothing of the sort. Individually, the wrestlers accomplished even more. Hyun Lee was always the first to lead the team off at the 112-weight class and often came off the mat with a victory for the Big Green. In only his second year of wrestling Jamel Irving captured second place at Class A's in the 125-lbs. class. Alex Jean also helped out the wrestlers with a strong season at 130 when he was not plagued by injury. Chris Brown, a promising young sophomore, had an impressive year which included 3<sup>rd</sup> at Class A's. Co captain Ryuji Yamaguchi was a spiritual leader and took 3<sup>rd</sup> at New England's. Returning sophomore Matt Konowicz had a stellar year at 145 and will lead the team next year as our captain. Senior Tim Jolis also contributed to the team at 152-lbs. class. At 160, Eli Barnes was not only an emotional leader, but also a great role model for the team of future years to follow. Co captain Ben O'Donnell achieved 4<sup>th</sup> place at class A's and led the team by example. Star Gibbs-Philip was by far the most improved wrestler on the team and closed out his senior year with a strong record. The late contributions of Brian Schmid at the 215 class led to the success of the team at Class A's. At heavy weight both Justin Kelley and Omar Hernandez made significant contributions to the team. The Deerfield wrestlers enjoyed a season full of success and triumphs in which all goals were achieved. No one could have predicted a team, which not only meshed well together, but also possessed an extreme amount of school spirit. On a closing note remember to avoid sharp and rusty objects when standing up. Thanks for an incredible year.

For the first time ever, the Deerfield Lacrosse team made the preseason trip to Florida. Abandoning the frozen tundra of Bowdin College for the warm weather of Kissimmee, Florida. The extra field time proved to be a blessing, and helped us beat Westminster in our opening game for the first time in three years.

The offense was a solid group of underclassmen: Andrew Armstrong, Chris Hall, Andy Hunt, Christian O'Mara, Dick Small, as well as the lone senior in the first two middle lines, Ryan Childs. The single freshman on the team, Carter Gray, and junior Rob Follansbee provided strong support off the bench as well. The attack was led by seniors Jim "Bigglesworth" Heyworth and Keith Kirley, junior Colin Shaw, and sophomore phenom Jamie Hahn. Coming off the bench this year were juniors Blake Campbell and Grant Cooper, who's one goal this year came off his chest. The senior-strong defense unit was led by co-captain Caleb Holmes and seniors Trevor Byrne, Brian Schmid, and Sam Garonzik. Underclassmen Mike Dion, George Craft, and Curtis Chin stepped up in key situations. A core group of stalwart defensive middies was led by co captian Aaron Kim and other long stick rob Fried. The Short stick "wildcat" unit of Bill Gilchrist, Bob Pate and Psycho Bob Gilbane came through with huge hits and an assortment of penalties. In the net senior Chris Martin and junior Mike Gilbane shared goaltending duties and posted a combined goals against average of 6.00.

We had a strong season and finished with a record of 10-5, and it all culminated with the team being crowned champions of the Choate invitational tournament at the finale. The team thrived off great leadership, hard work, and intense dedication from its coaches. The entire team will remember this Spring as one in which we bonded as group, and stuck together through the good times and the bad. We would like to thank both our coaches Mr. Davis and Mr. Clark, but the entire team would especially like to thank Mr. Demers without whom our success would not have been possible.

After winning the New England Championship two years ago, the Varsity Baseball team went into this season with high hopes and aspirations. Starting the season with three wins, they quickly made themselves known in the baseball circuit. With a tough loss to NMH by one run, the team rebounded and won three more in a row. The rest of the season proved to be a roller coaster ride of wins and losses. They made it to the New England tournament as the last seed and had a tough loss in the first round. Led by captain Tye Korbl, he was not only a spiritual leader, but was voted to the All New England team along with sophomore sensation Tyler Hassen. Justin Kelley provided a perfect mix of strength and finesse behind the plate, while Tyler Kolarik, Guy Smith, and Dennis Kiley controlled the outfield. Pitchers Pat Conley, Josh Sadlier, Chris Bray, Sam Lines, and Sean Starke shut down numerous batters. Coached by Mr. Magee, Mr. Lisa, and Mr. Churchill, the team used their skill and love for the game to take them to the New England tournament.

Thank you Ms. Mac, Mr. Harcourt, Dottie, Norm, and Ron for everything. From early April mud sliding, to Big Green Che, to green fingernails for every game, we were an awesome team. We learned to communicate, play together, support each other, and play great softball together. We ran, fielded tons of ground balls, threw amazing double plays from center to home, caught sky high pop flies, stole bases, hit doubles and triples, practiced pass balls, pitched strikes, and came ready to work hard and have fun everyday. "We're the members of the All American Team. We come from cities near and far...." To our Big Green H.S. infield, keep it real! This is the best team Deerfield softball has ever seen. Although we never hit "Blue Heaven" there's always next year. There's also next year to win the New England Championship!

The newcomers annual performance of "Wannabe" at the diner one early Monday morning was representative of this team as a whole... energetic, loud, funny, and of course beautiful. In the words of Ashley 'Grandma' Hilton, "with our good looks and sparkling personalities, we're sure the win the match." This could be true, but I'm also inclined to think that the team's spirit, heart, and determination combined with athletic talent were also key factors to this team's successful season (including a third place finish at the New England Tournament). This might be surprising for a team whose motto is "We don't run, we sun." Lopey, I'll never forget when those boys yelled out the window at Smith, "Wow there actually are hot girls at Smith!" and you shouted back "Actually lovely, we're from Deerfield." Throughout the season you always represented for us. Jess, what would we do without your dramatic stories to liven up the van rides? Lindy, thanks for the two great seasons. You were always a dependable and important member of the team. Mimi, so glad you could join us for New England's, it helped a lot. Stay healthy. Lexie, thanks for the noises during foot fire to keep us going! Anita, "I - NEED - A - CAR!" that joke will never go away until you get married. Thanks for the two great seasons. Ashley, "let me outta here!" Keep scaring Bement boys. Laura, "Through the mist I can see Laura..." Thanks for all the laughs. Last but not least the Nicole twins: the other team could never figure out how that one worked. You guys are great! But what I'll remember most about this team isn't the wins, losses, or even our good looks, but the laughs. Thanks for making my last spring at DA an incredible one. I love all you guys!

### TRIP TO THE TOP

Deerfield Girls' Crew established themselves as the top New England crew team this season. For a program that only gained varsity status four years ago, this is no small feat. Our season began a week before the end of spring term when a group of rowers returned from what proved to be a crucial preseason. We rowed through a lot of rain and bad weather, many erg workouts, and in the end came out on top at the New England Championships. We had five strong boats this year, all of which proved themselves amongst the strongest New England crews. Only five weeks into the season, the team headed down to Founder's Cup, a championship regatta held yearly. There we proved that, even though Deerfield did not have those fancy "uni's" like all the other top teams, our talent and determination could not be surpassed. Our girls' first boat squeezed out on top, beating the Cincinnati Junior Team. In addition, all four of our boats made it to the Grand Finals in their respective divisions. Because of these overall achievements, we won the first place girls trophy for the entire regatta. Our team stayed strong throughout the weeks leading up to New Englands. Every day, we arrived at our boathouse (there is not another with so much character) and focused on our goal of making each boat move as fast as possible. The hard work paid off at the end, when every crew again made the finals at the New England Championships. Our girls fourth boat placed fifth, our third boat was second, and our second boat was second in each of their respective divisions. Our girls' first boat again won the entire regatta. This time, however, there was more than a boatlength of open water between them and the second place boat. This stellar performance earned them an invitation to the High School Nationals held in Cincinnati. And again, we won the Girls' High Point Trophy for overall performance at New Englands! Thank you to Mrs. Harvey and Ms. Slesar. Your dedication and love of the sport has been inspiring. With your leadership and coaching, Deerfield crew will remain strong and proud.

Whether or not we won New Englands, I knew this would be a fun year. After losing one varsity member from the previous year, the team was lead by returners Jon Nuger '00, Chad DeLuca '01, and myself. In addition, we had the added benefit of two young guns, Jeremiah Daly '00 and Tyler Randol '02, each of whom were crucial to the success of the team. The strength was depth; each one of the top five was a medalist in at least one match. The sixth spot was up for grabs, with K.C. Collins '00, Ben Cooley '01, and Clarence Lee '99 each playing in matches. They seemed to have a little trouble playing with the big guns this year, but Cooley and Collins will surely benefit the team in the coming years.

With the lineup closely resembling the previous year, the biggest change was the replacement of Gordon MacLeod as varsity coach. Mr. Albertson had some big shoes to fill, but he had plenty with which to fill them, and soon learned the art of coaching golf. Mr. Albertson (known affectionately as Alber-Load) pushed us all to a higher level of performance with his intent stares over every shot and his decries of "combat golf." In addition, he enlisted the help of Adam Lussier, a Deerfield alumnus, whose loving nickname was "Lucy Goosy" and whose presence I shall say no more for avoidance of incriminating myself.

This year was not our finest performance at New Englands, and a fourth place finish was the best we could come away with. The one bright spot was a 74 fired by DeLuca, giving him a fourth place finish. "Little Italy" came through again; the rest of us did not. Regardless, it was a great season. Thanks to Mr. Hindle and Mr. Albertson for all their help, and I encourage each returning player to "strike fear in the eyes of every competitor."

From the Grand Celebration to Commencement, there were many reasons for Deerfield students to “Celebrate” this year. Students were involved in a wide variety of clubs, which provided entertainment and education for the entire DA community. A busy fall set the standard for numerous exciting events. Guest speakers, dances, trips, and special performances were among the events enjoyed by everyone. All classes not only proved to be worthy of their heritage, but also had a great time participating in activities at Deerfield. The diversity represented by this year’s clubs demonstrated the different interests of the student body. With preset goals, clubs were focused and effectively served the community with enthusiasm. The clubs and events exposed students to the people and world around them, and were a vital part of life at Deerfield.

## The Forum

**Faculty Advisor:** Ms. Silva

**Officers:** President: Kristina L. Rostad;  
Officers: Philip Altman, Kristy Hernandez,  
Tamara Brisk

**Mission Statement:** Debating is not an extra-curricular undertaken casually. Those who do it: therefore, are motivated by a strong drive...to excel (or perhaps just hear themselves speak). For many, debating is a refined arena in which we articulate ourselves persuasively and effectively through an exploration of controversial topics. For those it is justified by nothing more than the satisfaction of out-reasoning an opponent with superior logic. But for others, learning logic and rhetoric are the first steps in preparing for success in a world outside of Deerfield. Whether it is the means or the ends that are important, public speaking is perhaps one of the most worthwhile endeavors. You will recognize debaters as leaders and as the students who can skip their homework and still contribute the most to the discussion. So when you encounter debaters on your sports teams or in your classrooms, know that they are the self-selected few who submit themselves and their ideas to public scrutiny and judgement...and win.

Throughout the year, various organizations sponsored renowned guests to share their enlightened perspectives with the Deerfield community. Comedian Kate Clinton, poets Martin Espada and Mark Doty, author Archer Mayor, consumer advocate Ralph Nader and Fredrick Barton'67 of the U.S. State Department, were among Deerfield's visitors.

Ideas shared by these guests lingered on campus weeks after their visits and contributed to conversation among students and in their class discussions. Clubs have already begun seeking out guests for next year, as they are a valued element of the Deerfield experience.

The Samples

The Student Activities Committee filled Deerfield weekends with music, dancing, movies, magicians, and other fun events. A year of notable on campus concerts including eighties band Orange Crush, alternative group Two Skinny J's, singer Sam Saber, and the Deerfield Battle of the Bands, was appropriately concluded with the popular rock group The Samples. The East Gym was briefly transformed into a concert arena to facilitate the enjoyment of the talented band's music. Students hope to make a tradition of hosting a spring concert with bands of the Samples' caliber.

Whether you're groovin' on the dance floor, acting in the black box, sketching in the studio or jammin' in the practice room, the arts at Deerfield explore the individual creativity that makes Deerfield the diverse community that it is. Members of the Mellow-D's and Rhapsody-D's awe us with their harmonies at school meetings, the Chamber singers entertain at big events, while members of the Band and Brass Quintet create rare moments of beauty and serenity in the hectic lives of the Deerfield community. The stunning dance program at Deerfield never ceases to amaze us. Between hip-hop, jazz, ballet, tap and modern dance, there is hardly time to appreciate the student choreography that often make the pieces so wonderful. Visual art at Deerfield has never been stronger. With so many students participating in painting, drawing, sculpture, and ceramics, the walls of the gallery radiate with the strength of Deerfield's art program. And of course, there are the actors and other theatre participants who bring animation and life each term to plays and musicals for the entire school to appreciate. We can all agree that life at Deerfield wouldn't be the same without student art, dance recitals, exciting concerts and dramatic performances for us to enjoy.

Advanced actors Eli Barnes and Jessica Eipper amuse the audience with their farcical comedy.

Members of the fall extra-curricular dance class perform a lively beach piece sure to remind the audience that the last days of summer have passed.

As from the house your mother sees  
You playing round the garden trees,  
So you may see, if you will look  
Through the windows of this book,  
Another child, far, far away,  
And in another garden, play.  
But do not think you can at all,  
By knocking on the window, call  
That child to hear you. She intent  
Is all on her play-business bent.  
She does not hear, She will not look,  
Nor yet be lured out of her book.  
For, long ago, the truth to say,  
She has grown up and away,  
And it is but a child of air  
That lingers in the garden there.

arrived one summer's evening  
our joy would only grow.

From Montessori to Renbrook  
you kept us on our toes  
you loved to read, a chatterbox,  
the mall, your favorite clothes.

Doing for others, a great big sister  
patience beyond your years,  
it was very tough to let you go  
with all the attending fears.

We loaned you to Da'field,  
you made your mark  
in swimming then in crew.

you've worked so hard,  
we are most proud of you.

# Acknowledgments

At the end of this year, three important figures in the Deerfield community will be retiring. Each of these men has contributed immensely to the Deerfield community during his stay here.

Mr. Demers has been an athletic trainer for thirty-five years. His love for Deerfield goes beyond the injuries and roles of tape. He can be found on the sidelines of practically every football, hockey, or lacrosse game, always revealing his Big Green pride. As Mr. Demers commented, "Over the years there might be a trainer with more talent, but not one that loves Deerfield more." Clearly, he'll be missed.

Mr. Danielski has been teaching at Deerfield since 1959. With his knowledge of the Pioneer Valley, he encourages students to learn through experience and observations. His own passion of science can be seen in every student who has taken a Danielski course. His contributions have greatly influenced the Deerfield community and will not be forgotten.

Mr. Rousseau has worked at Deerfield since 1982. In addition to teaching many science classes, the superior networking of Deerfield can be credited to the hard work and diligence of Mr. Rousseau. He works tirelessly, in the mornings, on weekends, and late at night to make sure the network is running properly. He raised Deerfield communications to the next level. Without his hard work and persistence, our days at Deerfield would not be the same. As Ms. Douglas says, "He is such a kind and gentle man. Who could ever replace him?"

**Thank You Ms. Cullen and Mr. Marksbury!**  
We never could have finished 312 pages without you, even though we're not quite there just yet. Yearbook would not have been the same without late deadlines (a.k.a. extended), missing pages, confusing phone messages, stolen keys, productive meetings, period 4, and the endless joys of the new computers. We will never forget the deep, dark dungeon of Scaife. Thanks to all the editors for their hardwork and dedication.

Good luck next year!

This has been one long road over the past two years. Some people even may think it is the extent of our friendship. It's not. Yearbook has certainly proved itself to be a job, both stressful and rewarding. As Quinnie put it, "God, Doesn't it feel good when you press 'prepare for submission'?"

It all started two years ago with sports and Keith. We couldn't have gotten through without his refereeing and endless hours of entertainment. Despite the late nights, weekend hours, deathly phone messages, and daily pleas to the captains, for some reason, we decided to continue and take over the big job. This year, the transition was made much easier with the new computers arriving *only* two months late. The slow start was just the beginning of a long year. However, being forced to listen to Bob Marley and country music for hours on end, the time committed was easily justified when we realized we were preserving the memories we would want to return to in future years.

Over the past three years Deerfield has touched both of our lives in a way we could never forget. With graduation five days away, we take comfort in knowing we have repaid Deerfield, through long hours and dedication, for all that it has given us. Memories last a lifetime and Deerfield is a special place to which we will always return.

"Some people come into our lives and quickly go. Some stay for a while and leave footprints on our hearts. And we are never, ever the same."

Softball 2000 has broken all the rules with smiles on their faces. It was a team of surprises, spirit, and laughs gifted with talent and humor. Monday, Tuesday- out of control. Wednesday- kick butt. Thursday- OC. Friday- Normal. Saturday- kick butt. With giggles and constant wrestling, we managed to make Mac feel... awkward... he he! No one will ever forget beating Stoneleigh 4-3 in the bottom of the seventh., softball gold (no freshman) plum pits, or... bounce, bounce. To the new comers, you did your job exceptionally well. Kate, Liz, Shara, Lindsey, Casey, and Glenn... initiation wasn't so bad. Good luck in the years to come. Hilary, Lindsey, and Nat: it's your team, make sure to have fun shocking the coaches. To the seniors, its been wonderful. Bethany, Tamar, and Donielle I can't say how much fun I've had this season. Tamar how do you think Mac feels? Where is the meeting? Donielle, I think we beat Nat and Albow. Thank you physical plant for the amazing work you did on our field. Thank you Dottie, Norm, and Ron. Ron, they did what to our sports bras? To Ms. Mac and Mr. Harcourt, you're amazing coaches and people. Thank you for everything. I hope we didn't cause you too much stress. It's been an awesome season. I'll miss you all so much. Good luck next year. Big Green Thumbs!

With over half of the team rowing for the first time the girls crew team not only learned the technique and skills of rowing but also proved to be hard working, adaptable, and enthusiastic, even through incessant rain, cold, southerly wind, and line up changes (Up for another seat race?). We came a long way from late March, especially considering how many novices joined the team this year, form sorting things out the Charles River during pre-season (or fishing someone out of the Charles) to four girls boats qualifying for and racing in New England's in late May. We are proud of this season and look forward to continued momentum in the 2001 season.

Many people put a lot of work into making our team function so smoothly, not the least of whom include the dining hall staff, our daring bus drivers who took us over the hill, and Denny who kept us safe from falling branches, and of course Dotty, Norm, and Ron. Thanks to Ms. Kerr for joining us this year and bringing her stories (especially ones about Mrs. Harvey and the Artic) and her inspiring determination and talent. Thanks to Ms. Slesar who cares so much about everybody on the team and her understated unswerving support. It is impossible to thank Mr. & Mrs. Harvey for all the ways they have shaped and elevated the rowing program. The energy and commitment that they have devoted to will be missed in years to come. For the girls of this season and next, remember Mrs. Harvey's ubiquitous analogies and BE THE BACON!!

~Alexis Briley and Kate Murphy

The Deerfield Men's Crew team entered this season with high expectations. We started the season with a promising team; the first three boats were all returning, we hadn't lost one rower from the previous year. We came back a week early for an excellent pre-season at Harvard and back at DA and decided that what we had was one of the best teams in recent Deerfield history. Early on we lost two of our returning four first boat rowers to injury. But despite this there were both returning and novice rowers who stood up and took their places. At our first big trial, the Founders Cup, both the 1<sup>st</sup> and 2<sup>nd</sup> boats won the Petite finals, while third, fourth and fifth all made Grand's.

Now, we have come to the end, the final trial of the season, the New England Championships. With every stroke since the beginning of the season we have grown faster and it is now our time to prove it. After our last regular season race against Choate every boat qualified to race at the New England's. What will happen there lies in the future, but we know that every boat will go as fast as it can and faster than it ever has before. The team would like to thank Mr. Harvey and Ms. Kerr for a terrific year. We have never been as proud to be a part of anything as we have with this team. Thank you, and good luck next year.

**"A rainy day"**

It was a rainy day in April, the weather was looking bleak,  
 When the TAFT team arrived at DA, feeling rather weak.  
 They stepped off the bus, their tummies feeling queasy,  
 For they knew that playing the DA girls would not be easy.  
 As they walked down to the field, where the Deerfield girls stood,  
 They realized that their chances, were not looking good.  
 For what they witnessed down on the grass,  
 Was a combination of athleticism, heart and class.  
 They couldn't stop Quinnie, she was the best of the best.  
 And with Megan and Amy in the goal, they knew that scoring would be a test.  
 Courtney was a sniper, who the goalies did fear,  
 And with Bea's power shots, they wanted to steer clear.  
 To get to the goal, Taft would have to face Stielau and Brown,  
 Unfortunately they knew these two would take them to the town.  
 Siobhan is a new star, running all over the place,  
 The Taft girls had no chance, of keeping up with her pace.  
 Lizzie and Nancy are two new homes, who direct the attack,  
 While Hilary never misses the net, when it is time for her favorite stack.  
 Katie is a defensive wall, impossible to penetrate,  
 And Beth with her new catching technique, is going to be great.

Our strength has come from the entire team pulling together to rise to the standards that were set last season. Thanks to Wrightster, Valk, Dottie, Norm, and Ron for getting us ready for games and practice. And special thanks to the author of this flattering poem, our manager, Katie Fay.

The Deerfield Lacrosse team began their season with its second annual trip to Kissimmee, Florida. Sparked by the intense spirit and talent of Coach Henry Oakey, '94, the team enjoyed another successful preseason, having a "hoot" of a time. Returning home to the Craft's home cooking, we quickly adjusted to New England weather with a big win over Wilton, the defending Connecticut State Champions in our final preseason test.

Starting off the season with six straight wins, the team was led by its talented returners, as well as boosted by tremendous play of the four PG's: Jeff Gotchall, Sam Raymond, Kenny Osier, and Wes Talbott. Gotch and Raymond quickly adjusted to the new level of play and stepped up their games to match it. The bulk of the offense was initiated from a group of returning middies and attackmen. Captain Andrew Armstrong, Chris Hall, Andy Hunt, Christian O'Mara, Dick Small, Blake Campbell, Colin Shaw, and Bob Gilbane brought the offense to new levels. Jamie Hahn started on the tare before being injured for the season. With goals a plenty, it was the superb play of the defense that surprised us all.

Co-captains Rob Fried and Mike Gilbane led the stingy defense that gave up double digits only twice all season (two losses.) These two were complimented by Mike Dion and Rob Follansbee's incredible sticks along with Talbott's quick feet. George Craft rounded of the starting rotation and stepped up huge this season to fill necessary gaps. Curtis Chin (Random Task) provided the emotional and spiritual leadership before each game. Bridgeton bound Ross Mullican, Al Cullen, Dennis Kim, and Steve Pakan provided depth to solidify the defense. With Coach Clark's defense playing well, Mike Gilbane deserved much of the credit. Robbing team after team, Mike made countless huge saves during this season.

The season closed with a final record of 14-2. For certain, this season had been the most successful in the past four years, and it is with great pride we finished third in this tough league. We would like to thank Coach Davis and Coach Clark for all their hard work and faith in our team. Despite the one lull, we followed through our preseason goal and had one hell of a season. Next season sees the return of some starters along with lone freshman, Chris Kelly, sophomores, James Saucy Slattery, Carter Gray, Ted Cavan, and juniors Jay Johnson, Jay Rich, and Larry Wilkes, each whom have added tremendous defense to this years team. Although this season says farewell to Mr. Clark, we wish him all the best and thank him for his three loyal years.

Although we only made it to two races this spring, Deerfield cycling spent plenty of time on the road. We were a close-knit group (Andover still isn't as "bonded" as we are), and everyone learned to push themselves in practices and in races.

Next year, cycling will no longer be an interscholastic sport, but we will continue to ride and keep the spirit of Deerfield cycling alive. We'll miss our graduating seniors, Pat and Mark and Heather (and even Waldo!)- all of you made riding fun. Thanks, also, to Mr. Cumming, for the time and respect he has given us as a coach who has always been funny but serious, and completely understanding.

Kingswood Tournament- 1st place

After a disappointing fourth place finish at New Englands last year, the 2000 Deerfield Golf Team teed it up this year with something to prove. Led by four solid returners, we knew we could go out there and accomplish great things this season. Jon Nuger '00, Chad DeLuca '01, and Tyler Randol '02 all came up big in matches, and each one played in the number one spot in at least one match. We were also helped by strong performances from Ben Cooley '01 and KC Collins '00, not to mention a stellar varsity debut by Adam Sureau '01. Watch out for Bryan Ciborowski '03 in years to come.

After a 10-0 start, things were really looking up for us until we lost a close match at Hotchkiss. After a few more solid wins we finished up the season at 16-1, a record that truly reflected the skill on this team. With high hopes, we headed to New Englands looking for a championship to finish our season. Look out for DeLuca and Randol in the future; I expect both of them to continue lighting it up at Crumpin-Fox, and carry the team to more success. Thanks to Coach Albertson and to Coach Silipo as well, who really came through for us when we needed him. Their help and support were truly appreciated and have not gone unnoticed. And a special thanks to Mr. Hindle for all he has done this year and in the past. Czar has been an inspiration to us all and will be greatly missed but never forgotten. Thanks to everyone for making my three years on the golf team so much fun.

The 2000 tennis season started out like the rest. Our 5:30 AM trip to the diner is always the best. We saw the juke box and slipped in a quarter. A dance to Mmm Bop was clearly in order. The new recruits all strutted their stuff. When Pell seduced a trucker we knew it was enough. Our first few matches weren't very impressive, but it didn't take us long to pile up a great record. We had the dynamic duo of Caitlin and Helen/ What they'll do in their next three years there's no tellin. Nani always had her sunglasses tan. She wore lots of tennis dresses to please our fans. The one armed wonder "Mini Mimi" came a little late. But with a name like that there's no wonder she's so great. Anita was our hockey jock. She played a little game we like to call...SQUAWK! The truth about Ashley came out over Friendly's ice cream. In multi purposes she is the queen! Laura had a few temper tantrums but always regained her poise. Sports bra tennis and southern boys were two of her favorite joys. Lessons in the van were a team tradition. Hopefully our advise gave Nicole and Nick a new mission. Pellski lived up to our motto "We don't run, we sun," for although she never moved she was always lots of fun. This team was awesome, I had so much fun. We (almost) beat everybody and finished number one. Wins we had twelve and losses only two. You guys are the best, love always, your captain Blue.

*Sophomore* year! Yaa! Tabernak! #1! DW tennis shoes, BL hair, AL airbumping.

This year's tennis team brought confidence and positive attitudes onto the courts which were the building blocks to our winning season. With twelve years of Deerfield varsity tennis experience between the four returnees, the team was looking solid from the start. At #1 Stuart Brown demonstrated excellent tennis all season long and caused all opponents and teammates to raise the level of their play. At #2 captain elect Andrew Hubble had a great season, devastating nearly every opponent. At #3 captain Peter Carter finally lost his regular season undefeated streak which started *Sophomore* year. At #4 Jason "the Machine" Lam brought comic relief, and amazing cross-court passing shots to every practice, and destroyed nearly all opponents. In addition, four new members were added to our team making us a powerhouse in New England. The new members- Malcolm "Botswana" Scheffers at #5, Doug "Thug life/20 minute man/Cocky/Chuckie baby" Weeden at #6, Alex "The Awkward Freshman" Laporte at #7... "ah ah you ah played well today ah," and Brooks "Bye, Bye, Bye" Lyons at #8. The new members not only brought talent and competitiveness to the team, but most importantly depth. Switching to the College format, where doubles is worth one crucial point, the team knew it would have to elevate play in doubles. Sure enough we did and through Coach Morsman's "golden rules" of doubles we became the best doubles team in New England. The team met and surpassed all expectations by placing 2<sup>nd</sup> at the Kingswood Oxford tournament and making it to the finals of the New England's. The team defeated Exeter in the finals to become New England Champions! Overall it was a great season full of many laughs and victories. Lastly, I would like to thank Coach Morsman, the man responsible for making Deerfield tennis top notch every year and for all he has taught me in my four years with him.

# Baccalaureate

Baccalaureate marks the beginning of the end for seniors. The class of 2000 chose Mr. Malcolm McKenzie, a one year visiting scholar, to give the Baccalaureate address. His allusion to a wedding, "something old, something new, something borrowed, something blue..." as well as his global perspective encouraged the seniors to prepare for the future while remembering the Academy.
